PROFESSIONAL-GRADE ALU80 POSTS FOR BALL STOP NET SYSTEMS

REMOVABLE POSTS

These strong ball stop posts simply slot into the ground sockets and can easily be removed when no longer required – perfect for multi-sports clubs.

ROBUST ALUMINIUM

Made from heavy-duty 3.1in OD reinforced aluminium, for a rust-proof ball stop post which can handle all weather conditions.

GET YOUR NETTING

Complete these ball stop fence posts with some quality netting. Choose from our range of rot-proof & UV-treated ball stop nets.

SPECIFICATIONS

SIZES AVAILABLE:

- 12ft (3.7m) above ground (15ft in total) – made up of two sections
- 20ft (6m) above ground (22.5ft in total) – made up on three sections
- 26ft (8m) above ground (30ft in total) – made up of four sections

MATERIALS:

- Posts are engineered using 80mm OD reinforced aluminium
- Green powder-coating provides protection against rust, corrosion & sun damage
- Heavy-duty posts feature a 3mm wall with 5mm internal wall connectors

INSTALLATION:

- Sockets require professional concrete installation – CONCRETE NOT INCLUDED
- Minimum concrete dimensions: 39in x 24in x 24in | 100cm x 60cm x 60cm
- Posts need to be spaced approximately 17ft (5m) apart

MISCELLANEOUS:

- Pulley, cleats, haul rope, 35in ground sockets & socket caps included
- Available in black or green
- Posts are delivered flat packed & will require assembly prior to use
- SINGLE POST ONLY – Ball stop netting is not included
- During periods of high wind & bad weather, we recommend taking posts down
