Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
New windows will perform with improved insulation and thermal performance properties than existing 10 year old existing windows
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
The existing building is retained therefore no impact and carbon created by any re-build process.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

Does not apply to scope of this application
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
Does not apply to this existing building
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
This building is not situated in area of risk
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
Does not apply to scope of this application
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
Does not apply to scope of this application
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
Does not apply to scope of this application
