Hello there,

We have had the tree survey come back late last night after spending a considerable amount of time assessing the trees in question.

As one of the trees are deemed unsafe, can we apply under the "5 day rule"? My neighbour is very concerned about the protection of his house and family within it.

Please can you also advise if any of the other TPO trees need to come down, based on the information within the report? Just so I can get an accurate quote from numerous tree surgeons as soon as possible.

Report attached. I will send the application form as soon as I can and pay the fees retrospectively as I'm at an all-weekend dance competition with my daughter. I hope this is okay, thank you.

Joe
