Subject: Urgent tree works for Northern Powergrid near Butt Lane, Hepworth

CAUTION: External email. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning Arb Team,

Ref. **01/18/w1**

As you are aware Avove are employed by Northern Powergrid to prune trees and other vegetation away from its overhead network, this is to ensure the safety of the general public and to help maintain an uninterrupted power supply to the local residents and businesses.

We have a planned power outage in the area on Tuesday 24th November and need to re prune some trees near Ridge Dyke. (See map and photo) We have consent from the landowner but have noticed that it falls within the above TPO area.

We would like to re prune the Alder and Sycamore around the conductors to create a 3.5m safety clearance.

Please would you confirm that you are happy for us to re do this essential vegetation maintenance work?

Thank you for your assistance.

Kind regards

Fraser McHugh
