Hi Steve

I've no objections to the proposals. I've been out to site because there are a number of trees along the road frontage which will likely be removed for the access to the site. At that later stage we should be seeking a decent planting scheme along the frontage because these trees are quite prominent and form a good row of trees. I don't think we could justify placing a Tree Preservation Order though as they are poor quality trees with limited safe useful life hence my 'no objection'.

Hope this makes sense.
Nick
