APPENDIX A	HHS AGP TRAVEL AND PARKING MANAGEMENT PLAN	
APPENDIX B	DRAFT CUA HHS 3G PITCH + PROGRAMMES OF USE	

1 SUMMARY

Following the recent deferral of the planning application (2020/90640) in connection with for the Formation of artificial grass pitch with associated features, floodlights, erection of store and associated retaining structures and landscaping works at Holmfirth High School, Heys Road, Thongsbridge, Holmfirth HD7 7SE at the Kirklees planning committee meeting on the 26th August 2021, the committee members have requested some further information detailed in Section 2.

This planning support addendum provides the information requested.

2 ADDITIONAL INFORMATION REQUEST

The request for further information to be provided was sent by email on the 31st August 2021 from Christopher Carroll Senior Planning Officer Development Management (Majors)

The request was for information on the following areas: -

- 1) Drainage system - given comments regarding incidences of flooding nearby -a more sophisticated drainage solution may be required than the soakaways proposed
- 2) The proposed parking provision for users of the facility and its impacts on Springwood Road and highway network
- 3) Community Use- details of the clubs/teams that will be using the facility and the community usage agreement with Sport England
- 4) Charges /cost for users of the facilities
- 5) Times of operation- detail clarifying when the community use will commence and school use will finish

3 ADDITIONAL INFORMATION

3.1 Drainage

The committee members have reported that Flooding had been reported by members of the public in and around 27 Springwood Road and concerns have been raised that any further development may cause further flooding. Labosport would like to offer the following points in respect of the reported flooding, the large amount of work that has gone into the drainage strategy and design and the requirements of the National Planning Policy Framework to help the committee understand fully the implications of the design.

3.1.1 Flooding Reports

The reports of flooding in and around 27 Springwood Road, were reported by members of the public to Kirklees Council, one was from a report received by them on the 5th June 2021 which showed surcharged manholes near 44-45 Springwood Road, the other was from an objection letter, the letter was undated and the photo was not dated.

The reported incidents of flooding reported to Kirklees Council on the 5th June 2021, shows the surcharge of manholes in Springwood Road as a result of a rain event. As the response from the council suggested this should have been logged with Yorkshire Water as ‘A surcharging manhole would suggest to me that there is a strong possibility of a restriction of some description within the piped network causing a back up of water’ this would be downstream from the manholes and not as a result of surface water run off from the school field. There are no connections from the school to these manholes and there is no intention of connecting into them for the discharge of water from the drainage to the proposed pitch.

The second incident reported was within an objection letter to the proposed development. The photographs on page 2 of the letter shows water run off through the dry stone wall adjacent to the western garden wall of 27 Springwood Road, this location is in exactly the same place as the ‘Low Risk’ flooding shown on the surface water flood risk map above. This water although predominantly coming from the school site as a result of a rain event is not shown on the above map as coming from the plateau of the existing school pitches (which is the plateau to be used for the proposed artificial grass pitch).

3.1.2 Flood Risk

The below map is the flood risk map for Springwood Road from the gov.uk website, it shows a low risk of surface water flooding along Springwood Road.

There does appear to be a potential low risk of surface water flooding from the area of the upper ground of the school site to the area at the rear of 27 Springwood Road shown on the map, but there is more of a low risk of flooding from surface water run off from the Sycamore Recreation Ground towards other properties in Springwood Road shown on the map.

3.1.3 National Planning Policy Framework Requirements

NPPF clearly outlines the hierarchy to be investigated by the developer when considering a surface water drainage strategy. As such, the developer must consider the following drainage options in the following order of priority:

- 1st Into the ground (infiltration);
- 2nd To a surface water body;
- 3rd To a surface water sewer, highway drain, or another drainage system;
- 4th To a combined sewer.

This is necessary to promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution. This condition is imposed considering policies within the NPPF and NPPG.

3.1.4 Existing School Field drainage

There is an existing ground water drainage system within the school playing fields this can be seen in the below google earth view from 2009, clearly shows below ground ‘herringbone’ pipe drainage systems beneath the 2 pitches on the school site, the direction of the central spine collector drain is towards the north. These are most likely to have been installed during the construction of the school site and levelling of the playing fields in 1959. In 1959 the only type of drainage system that was used for sports ground drainage would have been a clay pipe system using short lengths of three-inch diameter clay pipe which when loosely placed together would provide a route for water to be collected, from a gravel trench which would allow surface water to permeate to the pipe.

The outfall from the Herringbone drains has not been able to be determined (if in fact there is one), however there is a chamber identified in October 2019 during site investigations on the lower plateau to the northeast of the proposed pitch site which is presumed to feed into an old soakaway but the chamber was dry and there was no evidence of any recent water inflow, that would be expected at the time of year.

It is likely that due to age these herringbone drainage pipes will be silted up and are likely to have a reduced flow. However, this is not contributing to the flooding incidents in Springwood Road as can be shown by the Surface Water Flood Risk Map.

3.1.5 Proposed Drainage Strategy

The most sustainable way to drain surface water runoff is using a sustainable drainage system (SuDS), which has been considered in relation to site-specific constraints discussed above.

SuDS work by mimicking the natural drainage system, providing a method of surface water drainage which can decrease the peak rate of water discharged, and hence reduce the risk of flooding to the pitch area.

The proposed AGP will comprise a permeable construction including granular aggregate within the AGP base and a positive drainage scheme (pipe drainage) installed beneath the AGP foundations area comprising UPVC perforated carrier and lateral pipe drains.

The AGP base (typically comprising granular sub-base consisting of Type 3 unbound (SHW 800 Series) will attenuate surface water before water enters the new piped drainage system and discharges surface water into a new soak away located Northwest of the application site.

The granular AGP base will attenuate surface water to ensure that excess volumes (which would be experienced during a critical storm event) do not bypass the control system.

This solution will comply with the first option within the drainage hierarchy, which is the preferred option described in the NPPF.

3.1.6 Proposed Drainage Design

During the application process the initial design was submitted with the application, the planning authority then requested their drainage consultee the Local Lead Flood Authority to assess the design and pass comment. Their comments were taken on board on several occasions resulting in further on-site testing and design work being undertaken. The initial design, subsequent testing and further design work have been reported to Planning and the LLFA and have been uploaded to the planning portal. We were further asked to summarise the testing and design and this is contained in a letter from JPP Geotechnical and Environmental Ltd dated the 30th July 2021 which is attached to this document (11750G-02 Holmfirth High School - Response to LLFA). This letter details all testing carried out on site to determine the best option for drainage strategy, it also details the design required to ensure that the strategy works, which includes details of all drainage elements and the final soakaway which consists of 'A Geomodular Soakaway Plan area = 12m x 35m Depth = 1m Invert level = 155.300 Infiltration rate: 4.56x10⁻⁵. Soakaway to be formed in the natural ground. Soakaway to be built in strict accordance with manufacturers details.'

3.2 Proposed parking provision and Management

The parking demands for the artificial grass pitch are documented in the Design and Access statement accompanying the original planning application. Also, within the D&A statement there are details of how car parking will be provided on the school premises.

The planning committee members have expressed concern that there are currently car parking issues on Springwood Road that are either associated with the school field and/or with the Little Wembley facility. Other officers within the Highway Authority have since said that they have witnessed such car parking issues when the school field is in use at the weekend. The highways officer has proposed a pre-use condition to be added to the planning decision notice, however members of the planning committee have requested that a 'draft car park management plan' be submitted prior to the planning decision.

The Travel and Car Park Management Plan is attached to this report as Appendix A - HHS AGP Travel and Parking Management Plan (2)

3.3 Community Use

3.3.1 Community Use Management plan.

As detailed in the Design and Access statement for the development submitted with the planning application, Holmfirth High School will implement a community use management plan to ensure the AGP is correctly operated. This plan will provide a management structure for the facility is outlined below: -

- Overall responsibilities
- Direct reporting systems
- Day to day management
- Training, staffing and staff development
- Maintenance and security
- Community use of facilities
- Community booking procedures
- Community operational procedures
- Local resident communication
- Onsite car parking for community users

The AGP will be managed and operated as an amenity to current sports facilities provided at the school and the AGP will provide five principle types of football applications and will offer a variety of match play pitches and training areas within the same enclosed playing space to support The Football Association's development plans into grassroots football and gain the maximum sport developmental outcomes; during the day, evenings and at weekends via pre-arranged and structured community access.

3.3.2 Community Use Agreement

A Community Use Agreement will be put in place and it will follow that suggested by Sport England. The document provided on the website link below is to be used by the school, this is also required to be put in place by their funding partners: The Football Foundation: -

<https://www.sportengland.org/how-we-can-help/facilities-and-planning/planning-for-sport/community-use-agreements>

It would be normal for this to be a pre-use condition of the planning decision notice as there is much work involved in drafting the agreement and getting it signed by all parties involved. This process is underway by the schools governing body, and it will be presented fully completed as soon as is possible.

A draft of the community use agreement is attached as Appendix B to this report - CUA HHS 3G Pitch. Along with AGP program of use data for the main football season and the off season. Which includes all information regarding the use of the pitch and pricing etc.

The Community Use Agreement and the programmes of use will address the concerns raised as well as set out clear plans for exactly how the pitch will be utilised by both the school and the community; including: -

1. Details of the clubs / teams that will use the facility (Contained in the programs of use).
2. Charges /cost for users of the facilities
3. Times of operation- detail clarifying when the community use will commence, and school use will finish

Appendix A - HHS AGP Travel and Parking Management Plan

Holmfirth High School

ARTIFICIAL GRASS PITCH (AGP)

TRAVEL AND PARKING MANAGEMENT PLAN

INTRODUCTION

This proposal will not prejudice the satisfactory functioning of local highways and additional traffic movements should not result in unacceptable impacts on the highway network.

The expected usage of the Artificial Grass Pitch (AGP) will be primarily by local organisations and community sports clubs from Holmfirth and the surrounding areas.

Typically, the main period of AGP use will be in accordance with the football season and there will be increased usage during the spring and summer periods catering for football training and development activities.

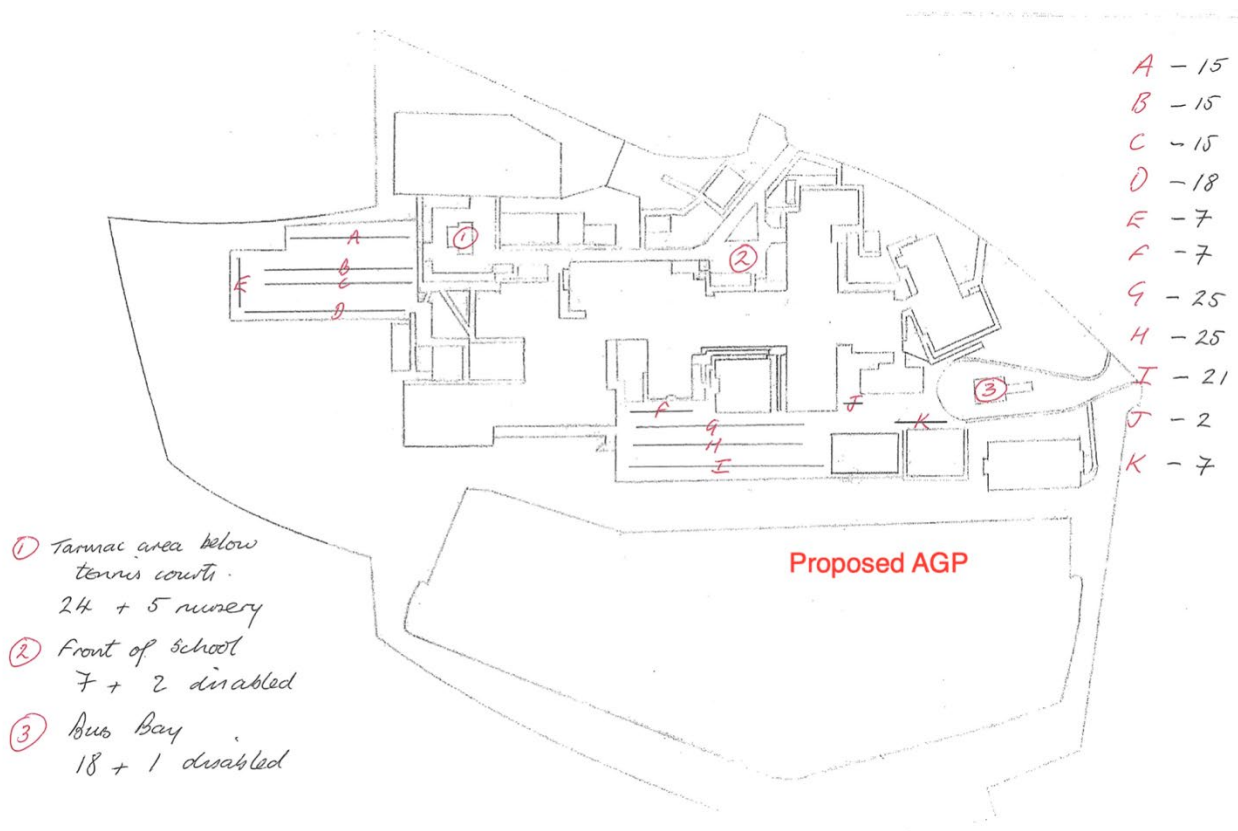

There will be increased traffic movements because of the AGP, but more than sufficient car parking provision onsite is available.

The school's commitment is to provide onsite car parking for all pitch users during the permitted hours of community use (after the school day and at weekends) as required.

This will be achieved by implementing the following plan:

TRAVEL AND PARKING MANAGEMENT PLAN

1. The school's entrance gates are currently opened from the start of the academic day to then end of after school and community sports centre activities, to ensure free access to onsite parking outside school hours. This arrangement will naturally continue for community AGP users.
2. During the school day, Holmfirth High School will use the AGP and no increase in traffic is expected.
3. After the school day and at weekends (outside school hours), the AGP will be used by local community groups and sports clubs.
4. At the end of each school day the site typically clears very quickly with students and staff departing the site. This will allow for all vacated car parking spaces to be allocated accordingly for community visitors travelling to site.
5. Community access to the AGP will be limited to between the hours of 18:00 to 20:00 (Monday), 18:00 to 21:00 (Tuesday to Thursday), 17:00 to 19:00 (Friday) and between the hours of 10:00 to 17:00 (Saturday) and 10:00 to 14:00 (Sunday). The facility will not be open on Bank Holidays.
6. There is space within all parking areas for vehicle circulation, turning to enable vehicles to enter and exit in a forward gear.
7. The current onsite parking provision offers 206no. parking spaces including 3no. accessible parking spaces as illustrated below:

Holmfirth High School

ARTIFICIAL GRASS PITCH (AGP)

TRAVEL AND PARKING MANAGEMENT PLAN

8. The AGP playing arrangement supports up to 100 maximum players at any time when playing U7/8 mini soccer or for 5v5 football training / grassroots development over the four smallest pitches.
9. The necessary car parking availability will therefore be will be 100no. parking spaces for local organisations and community sports clubs if every individual person arrived alone by car (which is considered highly unlikely).
10. The AGP will be managed such that traffic movements between pitch use and special events will be such that they will not overlap and/or conflict with each other and as such would not create undue congestion.
11. For example, use of the AGP will be suspended during the School's open evening each year.
12. During any other special events, notice will be provided to any community AGP users affected, to warn of reduced parking spaces. Visitors will be instructed to car share or be dropped off and picked up at the School but not to bring cars to site where possible.
13. Existing public transport including bus services and green travel initiatives including walking and cycling will continue to be available for community users. The promotion of car sharing as well as a drop-off / collect system and the use of mini bus (or similar) will be promoted to all community AGP users.
14. Parking on the nearby Springwood Road will be reduced as a result of the AGP. Fewer matches will take place on Little Wembley resulting in the users parking on the school site where there is ample parking opportunities, as demonstrated above.
15. School will encourage the remaining users of Little Wembley to park on the school site. We will do this by liaising with the clubs to make sure people are aware that free, secure off road parking is available to them. This will be safer for adults, parents and children and reduce any excess congestion that would have remained on Springwood Road.

SUMMARY

It is therefore concluded car parking at the School can accommodate expected vehicular traffic both during and outside normal school hours whenever the AGP is used.

The proposed AGP uses will result in a negligible impact on the local highway network and will not lead to car parking stress on the local roads. In some cases it will even reduce parking on local roads.

There should therefore be no transport or highway related reasons for not permitting development.

DATE September 2021

- (1) **HOLMFIRTH HIGH SCHOOL** of Heys Road, Thongsbridge, Holmfirth HD9 7SE (“the **School**”)
- (2) **KIRKLEES LOCAL AUTHORITY** of High Street, Huddersfield HD1 2TG (“the **Council**”)
- (3) **PENNINE SPORTS PARTNERSHIP** of Heys Road, Thongsbridge, Holmfirth HD9 7SE

1. Recitals

- 1.1 Planning Permission was granted by the Council for the Development subject to conditions. Condition [*insert number*] of the Planning Permission requires that an agreement shall be submitted to the local planning authority for approval to demonstrate how community access to the Sports Facilities within the Development and/or the wider school site will be managed.
- 1.2 The parties wish to enter into this Agreement in order to make the outdoor Sports Facilities at the Development and/or the wider school site, available (when their use is not required by the School) for use by the local community in compliance with the terms of this Agreement and Condition [*insert no.*].
- 1.3 The School is the owner of the School Premises and is responsible for their use.
- 1.4 The Council has responsibility for the provision of sports facilities in the South Kirklees area for use by and for the benefit of the community and is desirous of entering into this Agreement in furtherance of that responsibility and as the local planning authority in respect of the Development.
- 1.5 Pennine Sports Partnership supports and promotes community participation in sports in the local area.

2. Definitions and Interpretation

In this Agreement the following words or phrases have the corresponding meanings ascribed to them unless the context otherwise requires:

Community Use	means use of the Sports Facilities by the local community including organised sports clubs, organisations and for casual use.
Casual Use	means availability for any individual(s) or groups to book the Sports Facilities up to [<i>insert number</i>] days in advance for use on a pay-as-you-play basis, where space is available
Development	means [<i>insert description of the development</i>] for which Planning Permission has been granted
Sports Facilities	means the sports facilities identified in Schedule 1 to this Agreement forming part of the School Premises
Management Committee¹	means the management committee as defined in clause [6.1] of this Agreement
Parties	means the parties to this Agreement
Planning Permission	means planning permission (reference []) granted by the Council on []
Priority Groups	means those groups identified by the Parties as being under represented for the particular activity engaged in
Review Committee	means representatives of each of the Parties to this Agreement or their nominees

¹ Delete definition if no Management Committee.

School Core Times means 9.00 to 6.00 Mondays to Fridays during term time as defined in Schedule 2 to this Agreement

School Premises means the land and buildings comprising Holmfirth High School

3. Aims

The Parties agree to pursue the following aims:

- Providing opportunities for the local community and sports organisations to participate in sport and physical activity for health improvement and development of their skills, particularly amongst low participant groups;
- Operating in line with the national agenda for sport taking into account nationally adopted strategies;
- Generating positive attitudes in sport and physical activity by young people and reducing the drop out rate in sports participation with age;
- Increasing the number of people of all ages and abilities participating in sport and physical activity including people with disabilities;
- Using the facilities to encourage the range, quality and number of school sports club links and to stimulate competition that is inclusive of young people and adults;
- To provide affordable access to the facilities and to be self financing in terms of community use;

4. Arrangements for Community Use

The School agrees to make the Sports Facilities available for Community Use in accordance with the provisions of Schedule 2 to this Agreement.

5. Targets for Community Use

The School shall use reasonable endeavours to achieve community use targets [*where appropriate*] in line with appropriate sports development strategies, including making a contribution to local participation targets for sporting and physical activity. The School shall work with Pennine Sports Partnership to provide a range of opportunities

and pathways for the community. These may include existing initiatives and will also include new and local activities.

6. Marketing and Promotion

The School will be responsible for marketing and promoting the Sports Facilities in accordance with the agreed aims and targets. A marketing strategy will be prepared and implemented and reviewed on an annual basis.

7. Management²

7.1 A Management Committee will be established within 3 months of the date of this Agreement to develop Community Use of the Sports Facilities in accordance with the terms of reference and constitution of Schedule 3 to this Agreement.

7.2 Membership shall include representative(s) (or their nominee) from each of the following:-

- (a) The School³
- (b) The Council
- (c) Pennine Sports Partnership

7.3 Under these terms of reference, the Management Committee will, in accordance with this Agreement, seek to establish a practical policy framework for the management and operation of the Sports Facilities during agreed periods of Community Use. This framework should seek to enable:

- (a) a policy of affordable pricing to assist in the achievement of the aims of this Agreement. The policy will ensure that prices shall be no greater than similar local authority run facilities in the area;
- (b) the promotion and forward planning of development activities, at times which best suit the target groups;
- (c) equal opportunities of access;

² Delete clauses 7.1-7.3 if a Management Committee is not required.

³ To be the most appropriate person(s), such as Governor, Head Teacher, Head of PE.

- (d) an easy and accessible booking arrangement for Casual Use and block booking, this system to be reviewed on an annual basis;
- (e) an appropriate marketing strategy for the marketing of the Sports Facilities for Community Use.

7.4 The School will be responsible for the Sports Facilities and shall:-

- (a) resource, control and routinely ensure the maintenance of the Sports Facilities in a manner that will allow achievement of the agreed aims, and
- (b) make the Sports Facilities available on the occasions and times specified in Schedule 2:
- (c) ensure provision of heat, light and water and such other amenities as required for the Sports Facilities and their intended use;
- (d) ensure that the Sports Facilities comply with all legislation and guidance in force at the time of this Agreement relating to access for disabled users;
- (e) cover the cost of gas, fuel, oil, electricity, water, rates and taxes that may be attributable to the use of the Sports Facilities.

8. Financial Matters

8.1 The School endeavours to ensure that the costs of operating Community Use at the Sports Facilities will be fully covered by income from such use and any surplus will be utilised to:

8.1.1 contribute to a contingency or sinking fund for major maintenance, repairs and ultimately renewal of fixed life elements of the Sports Facilities.

8.1.2 increase the use of the Sports Facilities by any Priority Groups by staging special promotions or by offering discounted rates of hire.

8.1.3 improve and increase the stock of sports equipment for use in connection with the Sports Facilities.

9. Monitoring and Review

9.1 Two months prior to the date on which the Review Committee produces its annual report the School shall make available to the Review Committee details of all usage,

bookings, maintenance and financial matters relating to the Community Use of the Sports Facilities to assist with the development and improvement of community access.

9.2 The Review Committee shall undertake an assessment of the adequacy of the implementation of this Agreement in relation to:

- hours of use of the Sports Facilities;
- pricing policy;
- compliance with targets and aims of this Agreement;
- marketing;
- financial performance of the Sports Facilities during the previous year; and
- maintenance.

9.3 The Review Committee shall prepare a report based on the above assessment and prepare recommendations as to how Community Use of the Sports Facilities can be further developed and improved.

9.4 The School shall implement all reasonable recommendations of the Review Committee as soon as reasonably practicable.

9.5 In the event any significant changes are required to this Agreement as a consequence of each or any annual review prior written approval of each of the Parties to this Agreement shall be required.

9.6 The School shall not materially reduce the level of community access to the Sports Facilities required by Condition [*insert number*] of the Planning Permission without the prior written approval of the local planning authority following consultation with Sport England.

10. Duration of Agreement

This Agreement shall operate for so long as the School Facilities are provided in accordance with the Planning Permission. In the event the School should cease the Parties agree to make every effort to secure the continued operation of the Sports Facilities for Community Use.

11. Authority

The School warrants that it has the full right and authority to enter into this Agreement.

12. No Variations

This Agreement may only be varied in writing by a document executed by all the Parties hereto.

13. No Agency

Nothing in this Agreement shall be construed as creating a partnership, a joint venture, a contract of employment or a relationship of principal and agent between the parties hereto.

14. Severability

If any term condition or provision contained in this Agreement shall be held to be invalid unlawful or unenforceable to any extent such term condition or provision shall (save where it goes to the root of this Agreement) not affect the validity legality or enforceability of the remaining parts of this Agreement.

15. Waiver

No term or provision of this Agreement shall be considered as waived by any party to this Agreement unless a waiver is given in writing by that party.

16. Non-Assignability

This Agreement is personal to the parties and none of them shall assign sub-contract or otherwise deal with their rights or obligations without the prior written consent of the others.

17. Governing Law and Jurisdiction

This Agreement shall be governed by the laws of England and Wales and the parties submit to the exclusive jurisdiction of the courts of England and Wales.

Schedule 1

1. The outdoor sports areas and facilities to be made available for Community Use shall comprise the following (as shown edged red on the attached plan):-

Schedule 2

Arrangements for Community Use

1. Users

1.1 The Sports Facilities shall be made available for Community Use.

2. Hours of Access

Autumn/ Winter (1st October- 31st March)

Community Use	Mon-	6pm- 8pm
	Tues - Thur :	6pm – 9pm
	Fri :	6pm – 7pm
	Sat :	9am – 5pm
	Sun :	9am – 2pm

Bank Holidays- Closed

SUMMER MONTHS (1st April to 30th September)

Community Use	Mon - Fri :	6pm – 8pm
	Sat :	9am- 2pm
	Sun :	Closed

Bank Holidays- Closed

3. Pricing

3.1 A policy of affordable pricing shall apply to maximise Community Use and in accordance with the aims of this Agreement. Prices shall be no greater than for similar local authority run facilities in the Kirklees area.

Quarter Pitch (per hour) - £30 (Football Clubs)/ £35 (Casual Use)

Half Pitch (per hour) - £60 (Football Clubs)/ £70 (Casual Use)

Full Pitch (per hour) - £120 (Football Clubs)/ £140 (Casual Use)

4. Booking arrangements

- 4.1 An easy and accessible advance booking arrangement for Casual Use and block bookings shall be established for hire of the Sports Facilities using a standard booking form.

5. Parking Arrangements (if applicable)

- 5.1 206 car parking spaces shall be available to park for community users.

Schedule 3

Management Committee⁴

Terms of Reference and Constitution

1. Purpose

- (a) To monitor progress against agreed aims and targets: programming, usage and financial and to provide regular reports for the stakeholders of the school on those topics.
- (b) To decide on policy issues e.g. pricing, the framework of sports programmes and staffing.
- (c) To ensure effective partnership working between the organisations involved in school community use.
- (d) To determine strategies for future developments at the School and timetables for their implementation.

2. Officers

The Chair shall have the following roles;

- Role of Chair:
 - To direct and control the meetings of the committee.
 - To cast a further vote if necessary to resolve any tied decision(s).
 - To represent the committee at other meetings and functions as necessary.

A Secretary will be elected by the full committee at the first meeting of each financial year (April to March) and will serve for one full year.

- Role of Secretary:

⁴ Delete Schedule 3 if a Management Committee is not required.

- To compile and maintain minutes of all meetings.
- To compile and issue agendas for meetings in timely fashion.
- To take care of all communications to and from the committee.

3. Operation

- (a) The full committee will convene at least twice per annum. Additional meetings will be held as considered necessary by a simple majority of members.
- (b) The School will resolve day to day issues. Whilst the School has full authority for any decisions they must adhere to the policy framework established by the full committee.
- (c) Day to day operation will be the responsibility of the School.
- (d) Sub-groups/committees may be formed by the Management Committee if considered necessary or desirable.

4. Reporting

- (a) Minutes of committee meetings will be maintained.
- (b) A formal annual report, as set out in paragraph 9 of this agreement, will be issued to cover policy, financial and sports development matters.
- (c) Other specific reports requested by other committee members when possible.

IN WITNESS whereof the hands of the parties or their duly authorised representatives the day and year first above written.
