

## About the application

Application number: 2020/92546	
What is the application for?:	Outline application for the development of up to 770 residential dwellings (Use
Address of the site or building:	Land off, Blackmoorfoot Road and Felks Street, Crosland Moor, Huddersfield, HD4 7AD
Postcode:	

## User comments

Type of comment: A general comment
<p>these comments are about the need to enable and encourage active travel by future residents to minimise car usage and promote healthy lifestyles. Furthermore, additional traffic on Blackmoorfoot Road generated by this development and at the former St. Lukes hospital site will be subject to increasing delays, particularly at the Manchester Road junction and at Longroyd Bridge, and the roadside environment for residents, pedestrians and shoppers, already of poor quality, will further deteriorate. Blackmoorfoot Road is not a safe or suitable route for cyclists, despite the Transport assessment implying that it is suitable. Therefore, the main pedestrian/cycling spine route across the site should be linked to Quarry Road, Crosland Hill Road and Tom Lane, and this should be a designated route, with an appropriate crossing at Dryclough Road, the route to two schools. Also, the development should include a high quality pedestrian/cycle path within the northern boundary of the site to link with Felks Stile Road, also an important route to Colne Valley High School and primary schools in Linthwaite.</p> <p>Other matters - all internal site roads together with existing residential areas on both sides of Blackmoorfoot Road should be subject to a 20mph speed limit; the site layout should enable bus penetration, and all dwellings should be carbon neutral.</p>
