<p>22 dwellings means a possibility of 33 cars and the environmental impact. Possibility of 66 more individuals impacting on an already under pressure Dr's surgery and local schools. The destruction of the natural wild life habitat that exists which brings pleasure to so many people, not withstanding the resident disabled groups having their daily walks ,who stop to feed ducks, geese and the fish that inhabit this environment. While the need for housing is an issue surely the derelict land on the site of Newsome Mills which seems to have been left to rot and is now a local eyesore now, would provide a better option for a development leaving a wildlife haven for all to continue to enjoy</p>
