<p>What a ridiculous idea! The Dam has been on this street for years and is something lovely to look at it, homes local wildlife such as birds and fish and the surrounding nature of all the trees and greenery and now that's going to be destroyed and ripped up unnecessarily to build eyesores of properties! It will overshadow our house and not give a pleasant view and it's already a busy road what with parking and being near a local school so it's going to make it worse!</p> <p>The noise it will create as well on a quiet and peaceful road for us that live on here and for the local businesses around it will be a nuisance And cause so much disturbance as well it just isn't right.</p> <p>It will also block the light we get on the back of the houses too.</p> <p>Walking past the dam on my way to work and stopping to admire the ducks and herons makes my day sometimes, the local kids also stop to have a look whilst walking to school and it's something nice to look at outside my window with the view of castle hill further ahead and now it's all going to be ruined and overshadowed!! There is plenty more land to build on, there isn't other dams around that is already a home to the animals so stop being selfish and greedy and go build somewhere else and leave our road alone! This cannot be allowed to go ahead!!</p>
