<p>There should be no building of Houses etc on Newsome Mill ponds due to the Educational aspect it gives to Children who frequent daily to see the Canada Geese, The Ducks, The Herons and the fish within the pond. There are also foxes in the area. Adults find pleasure in visiting the mill ponds due to its peaceful tranquillity and people including children feed the wildlife that are there. While Covid 19 has been upon us it has been a sanctuary for people taking their daily walk and to take in much needed mental health therapy that you can take away due to its calmness while standing there. I also feel Light would effect the houses opposite and shed darkness upon them, at the moment the open space gives lots of light to the houses opposite. I feel the house's opposite would be overlooked if this development went ahead. Traffic would increase and parking can be a problem now even without the development there. The local Active Social Care premises on Newsome Road visit daily on more than one occasion with the individuals who attend their care and surely this must help them. Yes the pond area could do with new fencing and the land adjacent to the ponds does need attention but why can it not be given back to Allotments that i believe it used to be. I strongly oppose this planning Application.</p>
