Dear Sir/madam,

I am writing about your plans for 22 new homes on Hart Street. As our Council had rejected this (and for the 2nd time) I hope that whoever come to look and give permission saw Newsome Mill and thought this is a mess. We could build here instead! Has he thought about transport, schools and doctors etc or is it financial that's why its 22 instead of 25.

We already have social housing just 100 yds away. What about the wild life that lives on the dam and some that come to visit. The most important question is where will the water go!!

Yours faithfully.
