<p>The mill ponds are both an important local heritage asset for Newsome as well as hosting a wealth of wildlife. The environmental impact of building over the ponds would be detrimental to our local village.</p> <p>They are an important historical feature in Newsome, a community which has already lost so much it would be morally and ethically wrong to take this away from the people of Newsome. The mill ponds are a central defining cultural and geographical feature of our community which has been so sadly neglected for so long.</p>
