<p>From the plans it looks like that some of the dwellings will be adjacent to my house so will block out the very limited light that I already have. This proposal will increase the traffic which is already very busy since new businesses were opened on Ruth Street. Cars are parked on Hart Street during the day whilst they go elsewhere for example doctors/gym etc due to not been able to park nearer as there is no parking availability. It will also put extra pressure on the doctors, dentist and local schools and even more if planning goes ahead for the derelict mill as well. I will be concerned about my cellar flooding depending on where the water will get diverted too. I believe these dwellings will de value my property especially if my house is in constant darkness as I already have the wall from the old bakery at the back. The ponds are a source of boosting residents and visitors well being who come to see the geese lay their eggs every year and I often see the bats coming out to feed.</p>
