Subject: Objection to Planning Application Number 2021/91638
Date: 01 June 2021 13:48:24

Dear Planning department,

I am writing to you as a resident of Newsome.

I would like to put on my record my objection to the proposed development around and over the Newsome Millpond.

The millpond should be brought into public ownership, to ensure the green space in the centre of the village is developed and improved rather than lost.

Until the area of the damaged mill complex itself has been built upon – now a derelict site for years - the impact of that development can not be fully assessed. One application was for is for 30 houses and 12 apartments or maisonettes to cover the open land at the back of the remaining tower, the other one included 33 one and two-bedroom apartments, and to incorporate some of the original features, such as the gatehouse, office arch and clock tower.

To add a further 22 units on top of the proposed 33 (42) would increase a small area by 55 to 64 dwellings, something no one in their right mind would find acceptable.

Please confirm receipt of my objection.

Kind Regards
