<p>The Mill Ponds should be preserved as they have lots of wildlife that rely on it for breeding, nesting and feeding. There are also several different species of bats that are using it as a feeding ground. I am very concerned about where all the water that comes from the surrounding hills that fill the ponds will go. My garden is already water logged most of the year and I feel this will only get worse if they are filled in. Traffic is also a concern as there are cars parked at both sides of Hart Street already and so more traffic will be a major concern.</p>
