<p>As a local resident who has lived all my life within sight of Newsome Mill Ponds I wish to strongly object to the the recent planning application for housing, and in fact any development of the site which would remove the open space or the ponds. Regardless of the heritage aspect of the site in association with Newsome Mills, this is virtually the last open space left in the village, the loss of which would have a very negative impact on the outlook of the surrounding homes. Over the many years I have lived in Newsome housing has systematically been squeezed into every open, often green field site which fell into the hands of developers, there has to be a time when enough is enough. The site is now something of a haven for wildlife and I also have concerns of the impact of any ground work on the mature protected trees. Furthermore, there is, in my opinion, no justification for allowing development of the Newsome Ponds when the adjacent brown field site of the mill is available and has had similar planning proposed.</p>
