| <p>The erection of 270 residential dwellings will significantly increase traffic in the area, especially leading up to and from the Bradley Bar roundabout in all four directions. The routes are already congested during peak times traveling in either direction into Huddersfield town centre, Brighouse, Bradley or Fixby (Leading into Rastrick and onto the Ainley top roundabout). These are extremely busy routes. This raises concerns in terms of highway safety especially during school hours with the All Saints College situated within yards of the proposed site. Traffic is ever increasing on the A641 Bradford Road and the A6107 without the addition of the proposed 270 dwellings. I'm also seriously concerned about the extremely negative impact this level of traffic and the related noise pollution will have on the property prices in this area.</p> | |
