<p>270 houses to be built ,which have the M62 to one side ,Bradford road to the other with Bradley road leading to the cooper bridge junction. Currently the traffic situation is extremely busy with two of the busiest junctions in Huddersfield .The amount of pollution being produced has a detrimental effect on all residents in the area. The Local school is near the junction at Bradley bar ,I cannot imagine the effect the poor air quality is having on the children's health. All this at a time when we have had the first known case of poor air quality causing the death of a child in our capital. I urge you to reconsider this plan as it is only the beginning with another thousand or so properties to come in the same area.</p>
