<p>Bradley road has long been filled with traffic coming into Huddersfield from the motorway but recent years have seen the road subject to greater and greater amounts of pollution and congestion. The mornings and late afternoons are often noted by the one line of cars crawling down the road.</p> <p>The area around Bradley road, including the green field behind the farmhouse and the golf course, are some of the few remaining pats which offer an escape from the crush of vehicles and developments which have already happened in and around the area (up in Fixby and the houses across from the golf course in what used to be woodland). As many have noted the range and types of wildlife in the area (which include deer, bats, owls, and more recently kites) are quite special and unique. All of the above face threat and extinction with the proposed new development which will add to the absurd levels of vehicle congestion and pollution on Bradley Rd. Please do not build here.</p>
