<p>Whitechapel road is congested at certain times of the day due to commuter traffic, traffic to 3 local schools.</p> <p>The local playing fields are popular with local Sunday football teams and parking is full on both sides of the road from 9.30 until 11.00.</p> <p>The field in question is on the migratory route for Canada geese which congregate in the hundreds twice a year on there annual migration. Deer are often present also.</p> <p>Traffic noise and pollution will increase dramatically and is a major concern for families. 24/7 floodlit areas/general warehouse noise/ noise from traffic/ and movement of traffic are a major concern,</p> <p>A58, is a congested road at peak times with traffic backed up as far as the traffic lights at Wyke. Adding the amount of HGV and light haulage movement in this area will make matters worse and force commuter traffic "RAT RUN" in through Scholes village impacting on Whitechapel roads traffic problems.</p> <p>This is a land barrier separating Scholes as a village from the Cleckheaton</p>
