<p>There will be a positive impact on the local community and other local businesses bringing jobs and careers to the young people of Kirklees. Once built this will provide a sustainable pipeline of jobs and roles in multiple sectors. I am confident that the plans will be adapted as required to ensure that there will be no detriment to the locality. This is an ideal location as it is easily accessible from the M62 and will not adversely impact the town centre. Despite the warehouse construction ISG are renowned for building smart, modern, attractive facilities which allow for fundamental operations which proved so key in the pandemic and enabled society to continue to receive essentials. Having seen similar constructions located at J61 of the A1 and J46 of the M1, the buildings are well designed and are sympathetic to their location. It is important to note that online retail and logistics continues to expand and this warehouse will inevitably be built somewhere, we should embrace the opportunity to give our community the investment it deserves. These are modern day mills and we need to ensure that the next generation in Cleckheaton / Spen are not disadvantaged by our inability to see the future.</p>
