

Subject: Planning Application no: 2021/62/92603/E

I wish to strongly object to the above planning application. I believe it will have a detrimental effect on the local area, in particular more traffic in an already busy area, noise and pollution, the visual impact which will adversely affect the landscape and heritage of the area.

I also support Save Our Spen's representations on this planning application as I share its concerns.

Yours sincerely
