

**Subject:** Planning application 2021/62/92603/E

Attention Kate Mansell

Dear Kate,

I wish to **object most strongly** to the above planning application for the following reasons:-

1) It will be totally obtrusive & dominate the surrounding area.

2)**TRAFFIC** In line with the inspector's report on the Local Development Plan there should be **no access** for vehicles from **Whitechapel Road**; this should apply during both the construction phase & normal operation. This is contrary to the present plans as submitted, such access should be restricted to pedestrians & cyclists (there appears to be no reason why 'cars & buses' cannot access the site via the A58)'

The documentation in support of the application indicates that it is envisaged that construction traffic will access the site via Whitechapel Road & that this access will be via the A58, Westfield Lane, (Through Scholes village) and Whitechapel Road as far as the site of the existing field gate; in view of the daily busy & congested nature of the centre of Scholes village such a route is totally unacceptable on road safety grounds.

I also support Save Our Spen's representation on this application as I share their concerns.

Yours sincerely.
