<p>I strongly object to this storage and distribution centre as I live on the A58 and the traffic is already terrible. Chain bar is really slow most of the time and adding to that is going to make matters worse. Also as soon as there's an accident or even something as simple as a car breakdown on the M62, the traffic outside my house backs up. The noise from the cars sat waiting in the traffic is really annoying. Music coming from the vehicles is bad and I can hear it inside my house not to mention the constant engine noise and pollution. Trucks go up and down this road 24/7 and because the road is not properly fixed i.e. Manhole covers are uneven, when a truck goes over it is sounds like something has crashed. It is so loud and at the moment I would say it's happening every 2 minutes. My front door shakes when they go over them and my house is set back from the road. Adding more trucks from this site is only going to make it worse. I am already at my wits end with the noise and there's absolutely no let up, ever. It's alright for people that don't live on this road to make decisions but they don't have to put up with it constantly. I also support Save Our Spen's representation on this planning application as I share its concerns.</p>
