<p>Traffic around Chain Bar, junction 62 on the M62 is already at saturation point most work days during the commuter hours back and forth to work places. Kirklees have spent several millions of pounds over the years trying to address and alleviate the problems around this area. When incidents occur around this junction, drivers use the roads through Scholes village to divert their journey away from the congestion. The village roads are not suitable for this increased traffic. It's a disaster in the making if this application is approved. It's not if, but when someone or some people are going to loose their lives. It's wrong to add a problem to a problem already existing, plain and simple. How can we trust a council willing to approve something so obviously wrong and dangerous on so many counts??</p>
