Subject: Proposed development 2021/62/92603/E
Date: 21 September 2021 18:38:38

I wish to strongly object to the proposed development A58/ Spen Valley and wholly support the points of view offered by Saveourspen group

I am very concerned about the environmental impact, loss of green space and the increase in traffic in an already congested busy area. I believe if granted the development would have a negative impact on air quality. I do not believe the local infrastructure can support such a vast industrial complex and its associated activities.

Yours faithfully
