For the attention of Kate Mansell

Dear Kate,

Reference Application number: 2021/62/92603/E

Proposed development on land to the west of the M62 and south of Whitehall Road, Cleckheaton, BD19 6PL

I write in connection with the above planning application. I wish to object strongly to this development in this location for the following reasons:-

This proposal is wholly unsuitable for the area, it's sheer size and appearance is completely out of character with the area. The amount of traffic, noise and pollution it would bring to a residential area is frankly unacceptable.

It's unsuitability has been highlighted by Kirklees' own highways report which has quite rightly suggested the entrance onto Whitechapel Road should be removed and all site traffic sent onto the A58. At first this sounds quite sensible until you pause and think about it and you're left with the question of where will all those cars go now? Obviously any cars that would have used the Whitechapel Road entrance will now turn left onto the A58 and then left up Branch Road which is weight limited and single lane with passing places.

A few hundred cars using Whitechapel Road with each shift change is preposterous, a few hundred cars going up and down Branch Road, even more so.

This building does not belong in a residential area, it belongs on an industrial estate which is why planning should be refused.

I also support Save Our Spen's representation on this planning application as I share its concerns.

Yours sincerely,
