<p>Having attended the information sharing event at the Gomersal Park Hotel it is evident that no benefits will come to the local residents. 2000 shiftworkers a day will need access in and out . A HGV vehicle will be entering or leaving the site every minute on average . Neither the A58 or B6120 are built to take the extra traffic and increased levels of air pollution and noise from all the comings and goings . Junction 26 cannot cope with todays traffic adequately causing traffic to queue regularly. It is such a pity to use open fields when all around are derelict industrial sites ripe for redevelopment . Reduction of wildlife habitat is not something to be proud of. Please examine the local roads and traffic density before Huddersfield decides the fate of an area of kirklees that I live in .</p>
