Contribution of land in Parcel DD1

Parcel DD1 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel DD1 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the north of Denby Dale. The parcel comprises agricultural fields with a mix of dry-stone wall and hedge boundaries and mature trees. Parcel size: 26ha. There are no significant boundary features to separate the parcel from the settlement. The inner parcel boundary to the south is formed by open residential gardens. There is some change in landform which creates a sense of separation between the settlement and the parcel. There is some perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. There is a strong perception of the wider countryside, limiting the impact of any existing urbanising influence.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel DD1

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is predominantly free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	There is some urbanising influence associated with development outside of the parcel. The weak inner boundaries allow for some influence from the urban area.
Would development impact adjacent Green Belt land?	Development in the parcel would significantly increase the urbanising influence on adjacent open land. The parcel primarily has only weak outer boundaries, so development within the parcel would in turn increase the urbanising impact of development on adjacent open land.

Parcel DD1

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Purpose E – Assisting in urban regeneration:

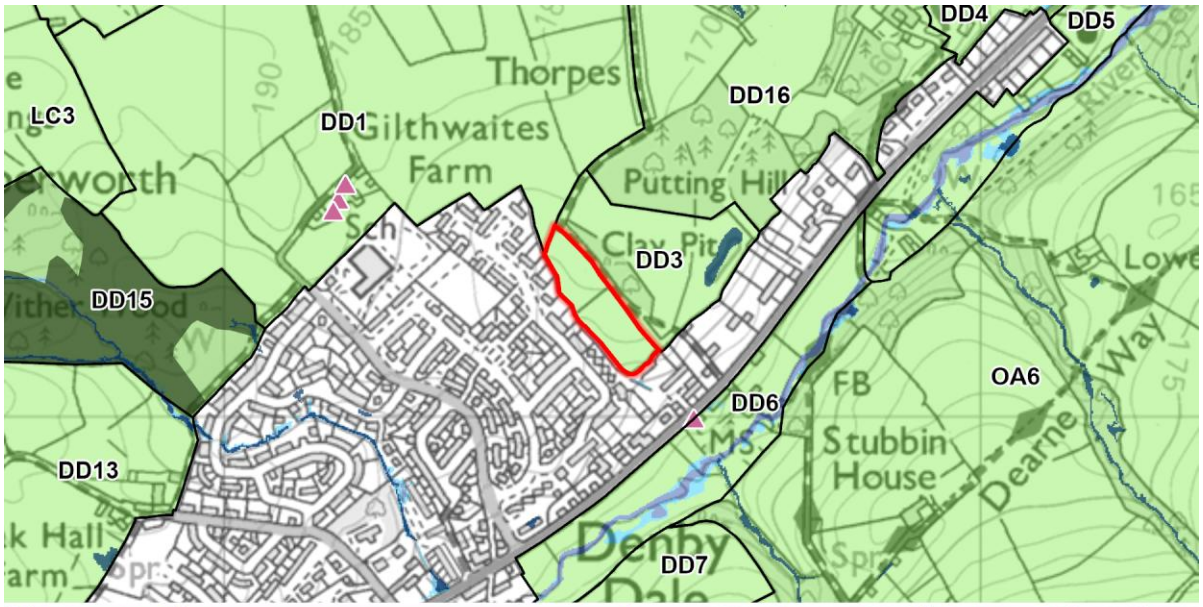

Equal contribution

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel DD2

Contribution of land in Parcel DD2

Parcel DD2 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Moderate	Weak/No	Equal	Yes

Parcel DD2 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the north of Denby Dale. The parcel comprises agricultural fields with a mix of dry-stone wall and wooded boundaries. Parcel size: 1ha. There are no significant boundary features to separate the parcel from the settlement. Weak residential gardens form much of the parcels south and west boundaries. There is no significant change in landform to create a sense of separation between the settlement and the parcel. There is some perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. Existing urban development limits perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel DD2

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Moderate contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	There is some urbanising influence associated with development outside of the parcel. The parcels weak inner boundaries allow for some influence from the urban area.
Would development impact adjacent Green Belt land?	Development in the parcel would not significantly increase the urbanising influence on adjacent open land. Development in the parcel would not increase urbanising influence on any land which is not already subject to at least as much urbanising influence as this parcel.

Parcel DD2

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Purpose E – Assisting in urban regeneration:

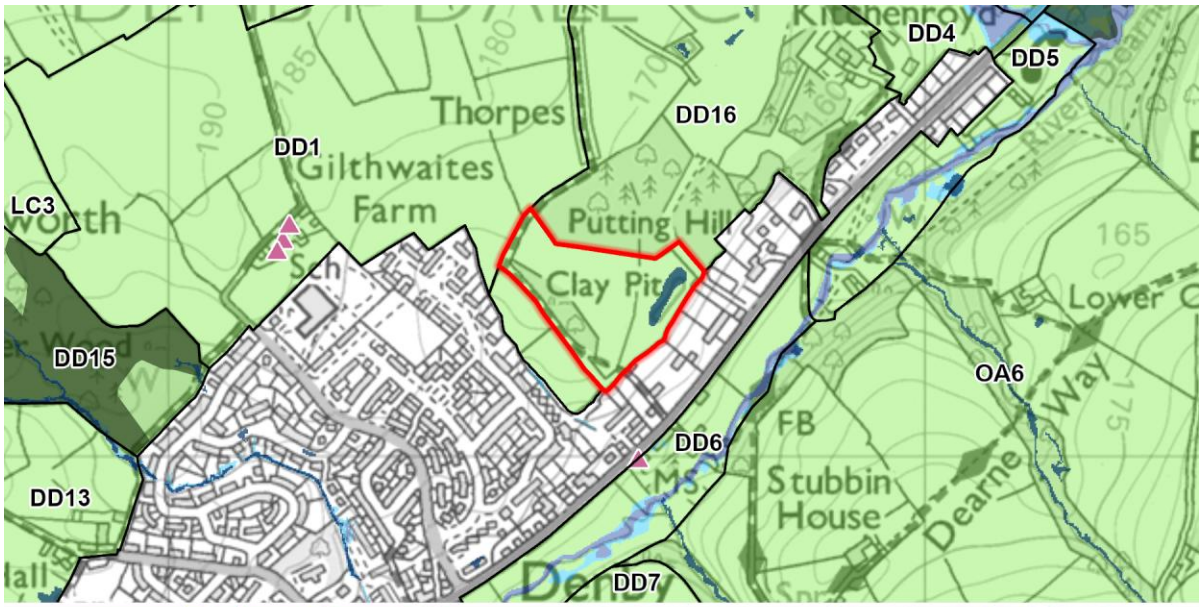

Equal contribution

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel DD4 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel DD4 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the north-east of Denby Dale. The parcel comprises an agricultural field with mature wooded boundaries. Parcel size: 3ha. There are no significant boundary features to separate the parcel from the settlement. The inner boundary to the south is formed by residential back gardens. There is a significant change in landform which creates a clear sense of separation between the settlement and the parcel. There is some perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. Natural features limit perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel DD4

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is predominantly free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	The parcel is predominantly free from urbanising influences associated with development outside the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would not significantly increase the urbanising influence on adjacent open land. Thorpe Dike with its associated woodland tree cover and landform change forms a strong outer boundary which would limit the urbanising impact of development on adjacent open land.

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Parcel DD4

Purpose E – Assisting in urban regeneration:

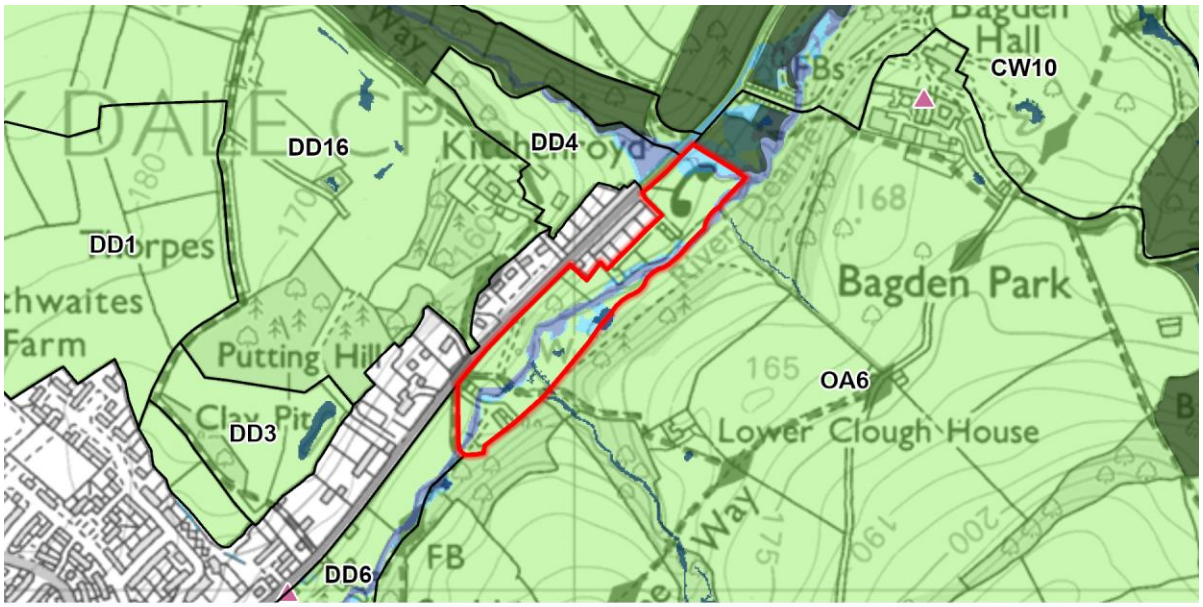

Equal contribution

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Contribution of land in Parcel DD9

Parcel DD9 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel DD9 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the south of Denby Dale. The parcel comprises residential properties and areas of mature woodland. Parcel size: 5ha. There is a combination of features creating a strong boundary between the settlement and the parcel. This includes the mature woodland and stream in the west of the parcel and the A635 and tree cover along the northern inner boundary. There is some change in landform which creates a sense of separation between the settlement and the parcel. There is some perception of urban development outside of the parcel. Existing development in the Green Belt has some urbanising influence. The railway line and landform change to the south limits perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel DD9

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	There is some urbanising development in the parcel.
What is the extent of urbanising influence from outside the parcel?	There is some urbanising influence associated with development outside of the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would significantly increase the urbanising influence on adjacent open land. The parcel has only weak outer boundaries along the south-eastern edge, so development within the parcel would in turn increase the urbanising impact of development on adjacent open land to the east.

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Parcel DD9

Purpose E – Assisting in urban regeneration:

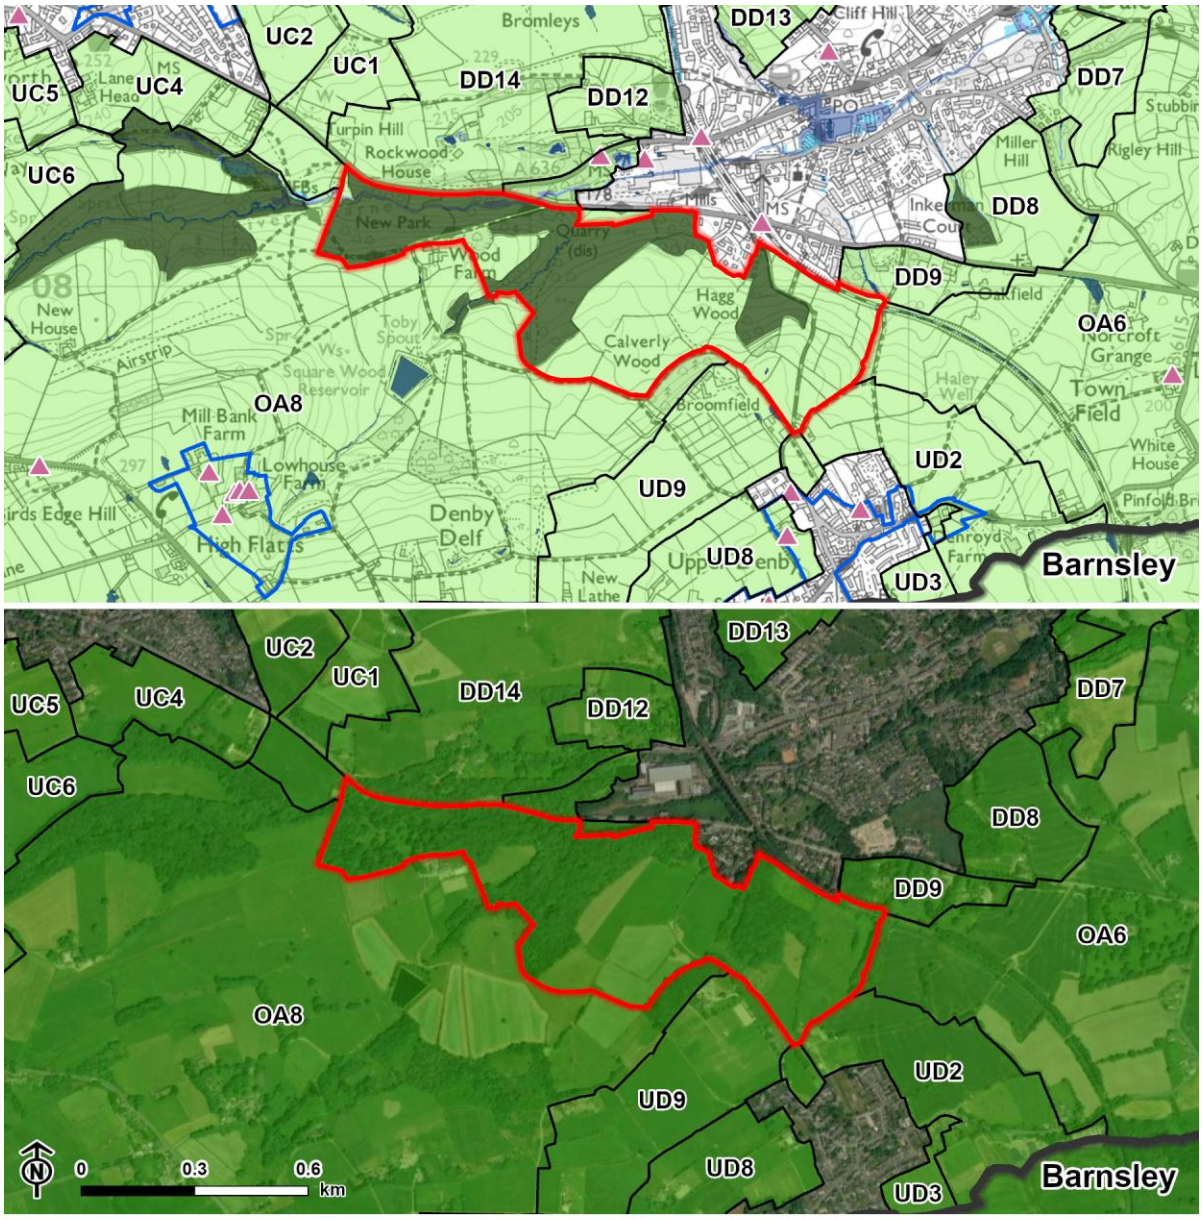

Equal contribution

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel DD10

Contribution of land in Parcel DD10

Parcel DD10 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Very Strong	Weak/No	Equal	Yes

Parcel DD10 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the south of Denby Dale. The parcel comprises agricultural fields with dry-stone wall boundaries and areas of mature woodland. Parcel size: 44ha. There is a consistent strong boundary feature between the settlement and the parcel. There is a significant change in landform which creates a clear sense of separation between the settlement and the parcel. The parcel rises steeply from the railway line in the north up towards Upper Denby in the south. There is some perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. Natural features limit perception of the wider Countryside. Steep local landforms and dense woodland cover limit connection to the surrounding Green Belt.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel DD10

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Very Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it. The parcel retains rural land uses and so is considered part of the countryside.
What is the extent of urbanising development in the parcel?	The parcel is free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	The parcel is predominantly free from urbanising influences associated with development outside the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would significantly increase the urbanising influence on adjacent open land. The southern outer boundary features are primarily formed by weak field boundaries, such that development within the parcel would in turn increase the urbanising impact of development on adjacent open land.

Parcel DD10

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Purpose E – Assisting in urban regeneration:

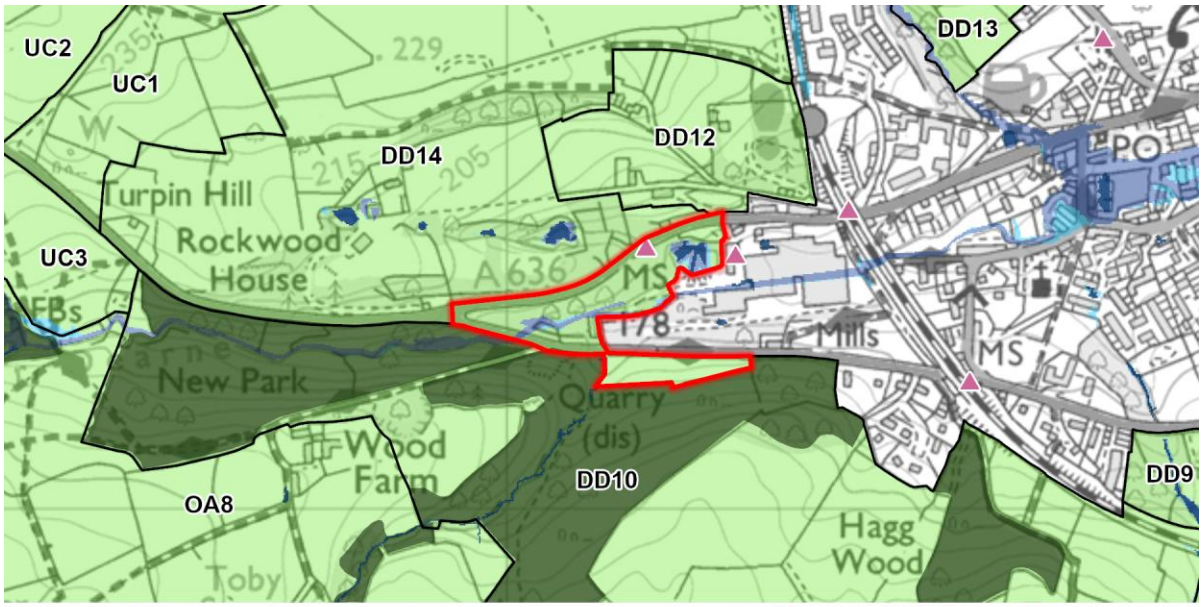

Equal contribution

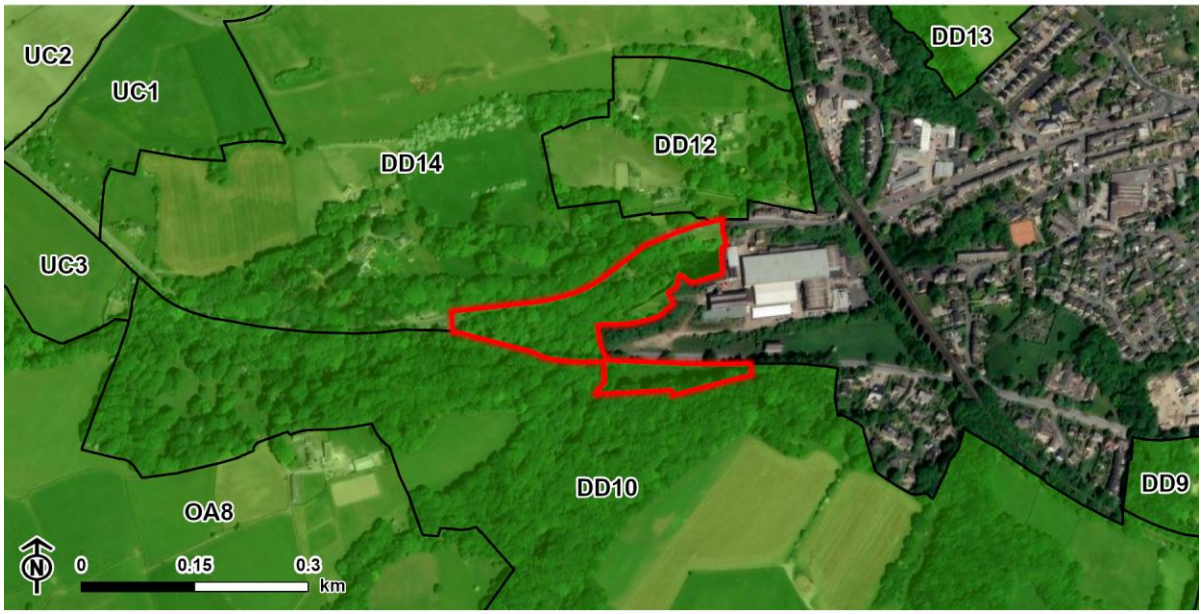

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Contribution of land in Parcel DD11

Parcel DD11 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel DD11 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the west of Denby Dale. The parcel primarily comprises mature woodland. Parcel size: 3ha. There is a consistent, well-defined boundary between the settlement and the parcel. This includes the woodland cover and Munchcliffe Beck. There is some change in landform which creates a sense of separation between the settlement and the parcel. There is some perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. Natural features limit perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel DD11

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	The parcel is free from urbanising influences associated with development outside the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would not significantly increase the urbanising influence on adjacent open land. Development in the parcel would not increase urbanising influence on any land which is not already subject to at least as much urbanising influence as this parcel.

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Parcel DD11

Purpose E – Assisting in urban regeneration:

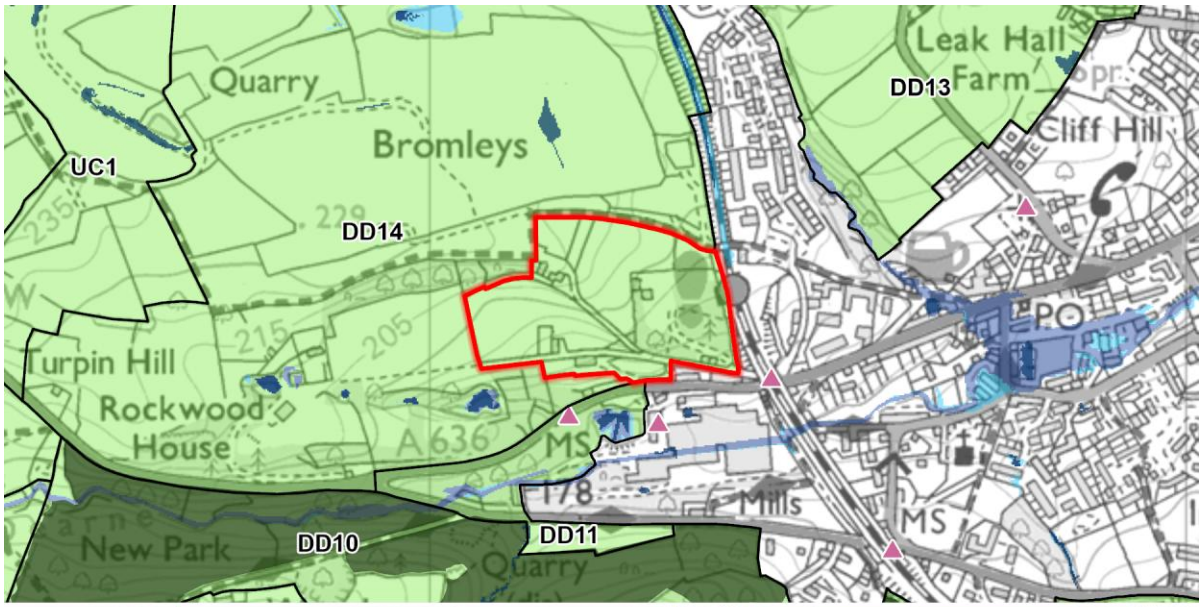

Equal contribution

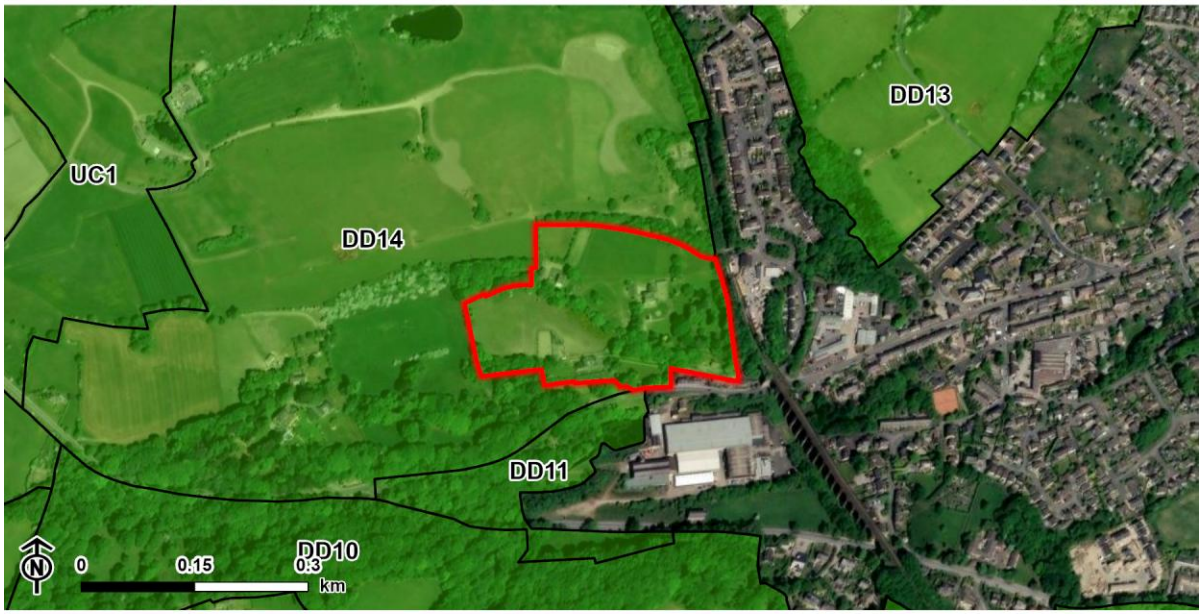

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel DD12

Contribution of land in Parcel DD12

Parcel DD12 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel DD12 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the west of Denby Dale. The parcel comprises residential properties, gardens, and small fields with scattered mature trees. Parcel size: 6ha. There is a strong boundary feature between the settlement and the parcel. This includes the railway line to the east, the A636 to the south and the associated tree cover. There is a significant change in landform which creates a clear sense of separation between the settlement and the parcel. There is a weak perception of urban development outside of the parcel. There is some urbanising activity in the parcel but land use also associates the area with the wider countryside. There is a strong perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel DD12

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is predominantly free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	The parcel is predominantly free from urbanising influences associated with development outside the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would significantly increase the urbanising influence on adjacent open land. The parcel has only weak outer boundaries to the north and west, so development within the parcel would in turn increase the urbanising impact of development on adjacent open land.

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Parcel DD12

Purpose E – Assisting in urban regeneration:

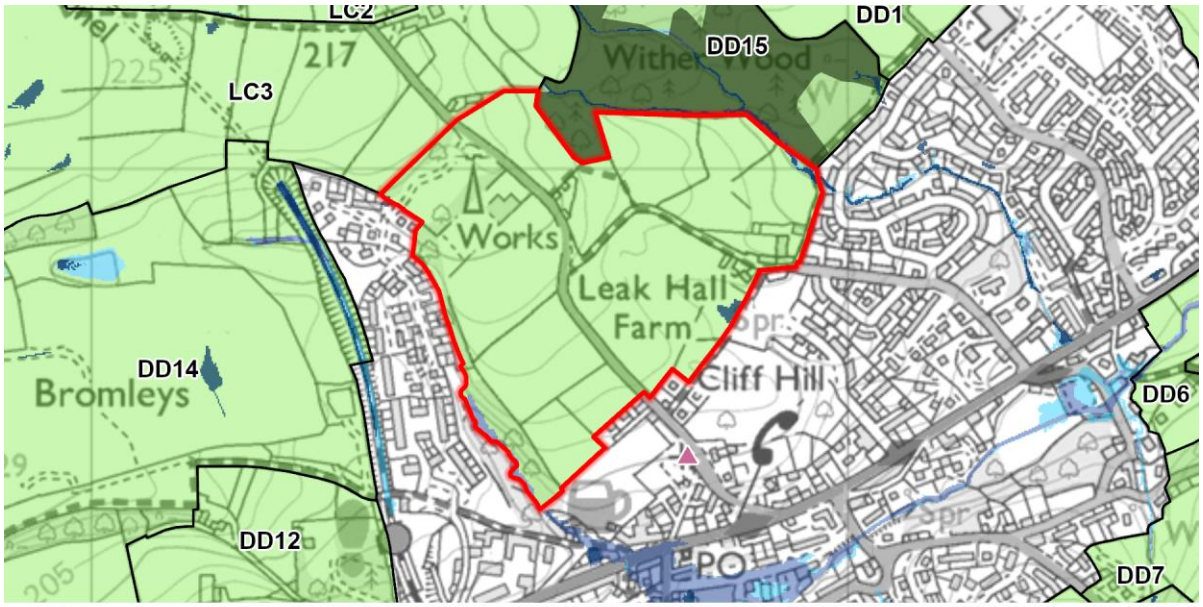

Equal contribution

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel DD13

Contribution of land in Parcel DD13

Parcel DD13 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Moderate	Weak/No	Equal	Yes

Parcel DD13 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the west of Denby Dale. The parcel comprises agricultural fields with mature woodland boundaries to the north and south-west. Parcel size: 18ha. Although a linear woodland strip forms a moderate boundary feature along the inner western edge, there are no significant boundary features to separate the parcel from the settlement to the south-east as the boundary is formed of weak residential garden boundaries. There is some change in landform which creates a sense of separation between the settlement and the parcel. There is some perception of urban development outside of the parcel. There is some urbanising activity associated with the commercial development in the north of the parcel but land use primarily associates the area with the wider countryside. Natural features such as Wither Wood and landform change limit perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A

Parcel DD13

Assessment Considerations	Assessment
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Moderate contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is predominantly free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	There is some urbanising influence associated with development outside of the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would not significantly increase the urbanising influence on adjacent open land. The strong outer boundaries of Wither Wood to the north-east and existing development and wooded slope to the west limit the impact on adjacent Green Belt.

Parcel DD13

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Purpose E – Assisting in urban regeneration:

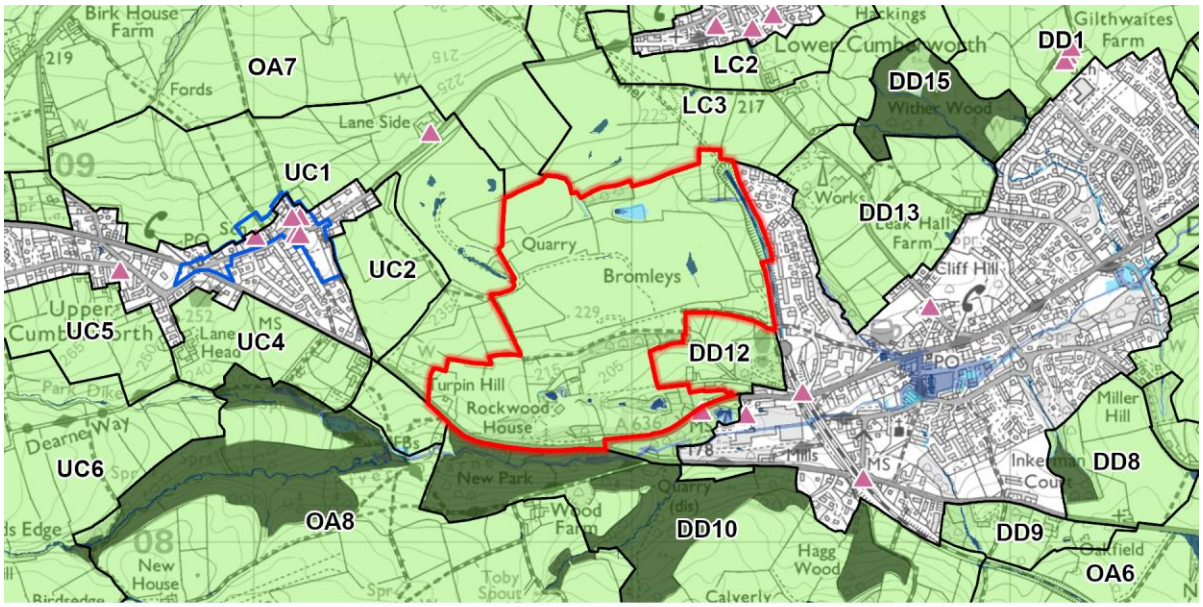

Equal contribution

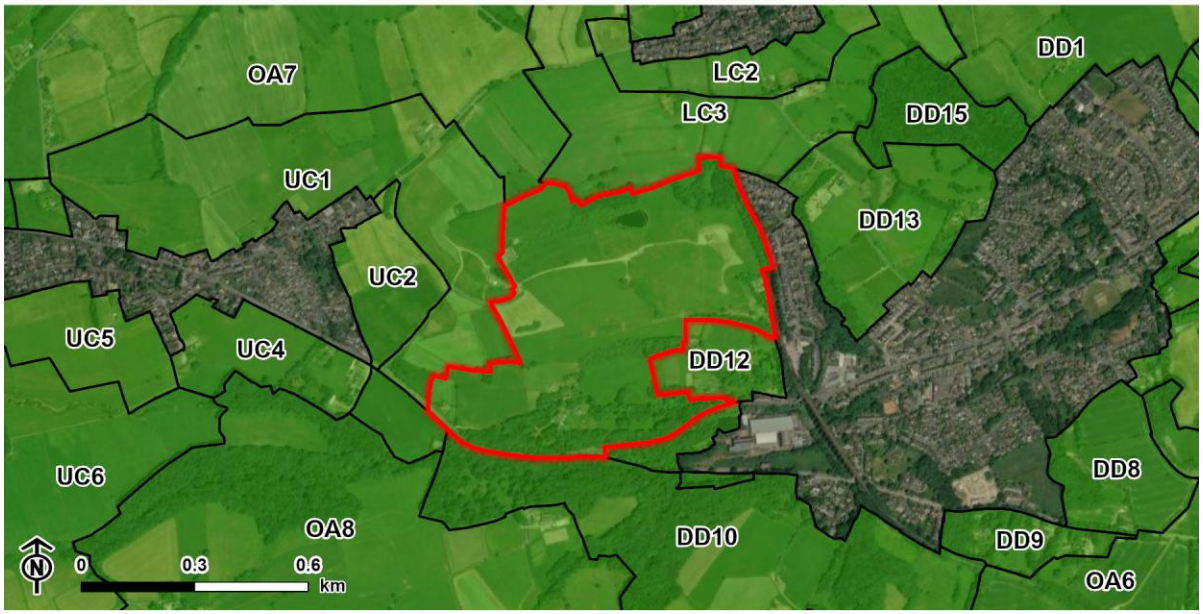

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel DD14

Contribution of land in Parcel DD14

Parcel DD14 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Very Strong	Weak/No	Equal	Yes

Parcel DD14 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the west of Denby Dale. The parcel comprises open fields with dry-stone wall, hedgerow, and open boundaries, Bromley Farm Recycling Centre and areas of woodland. These features also form the parcel's outer boundaries. Parcel size: 44ha. There is a consistent strong boundary feature between the settlement and the parcel. This includes the railway line in the east and the tre cover and A636 in the south. There is some change in landform which creates a sense of separation between the settlement and the parcel. There is a weak perception of urban development outside of the parcel. The strong inner boundary feature of the railway line with its associated tree cover allows for only a weak perception of the urban area to the east. Although Rockwood House and Bromley Farm Recycling Centre are located in the parcel, there is overall no significant urbanising development or activity in the Green Belt affecting this parcel. There is a strong perception of the wider countryside, limiting the impact of any existing urbanising influence.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A

Parcel DD14

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Very Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is predominantly free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	The parcel is free from urbanising influences associated with development outside the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would significantly increase the urbanising influence on adjacent open land. The lack of strong outer boundary features is such that development within the parcel would have a significant urbanising effect on adjacent open land.

Parcel DD14

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Purpose E – Assisting in urban regeneration:

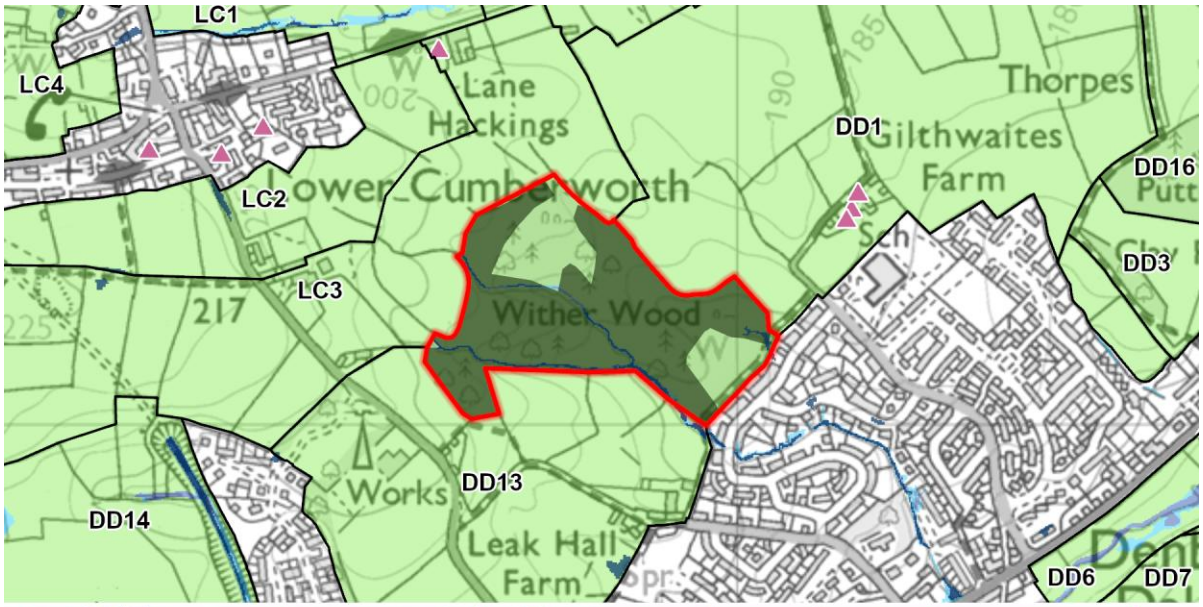

Equal contribution

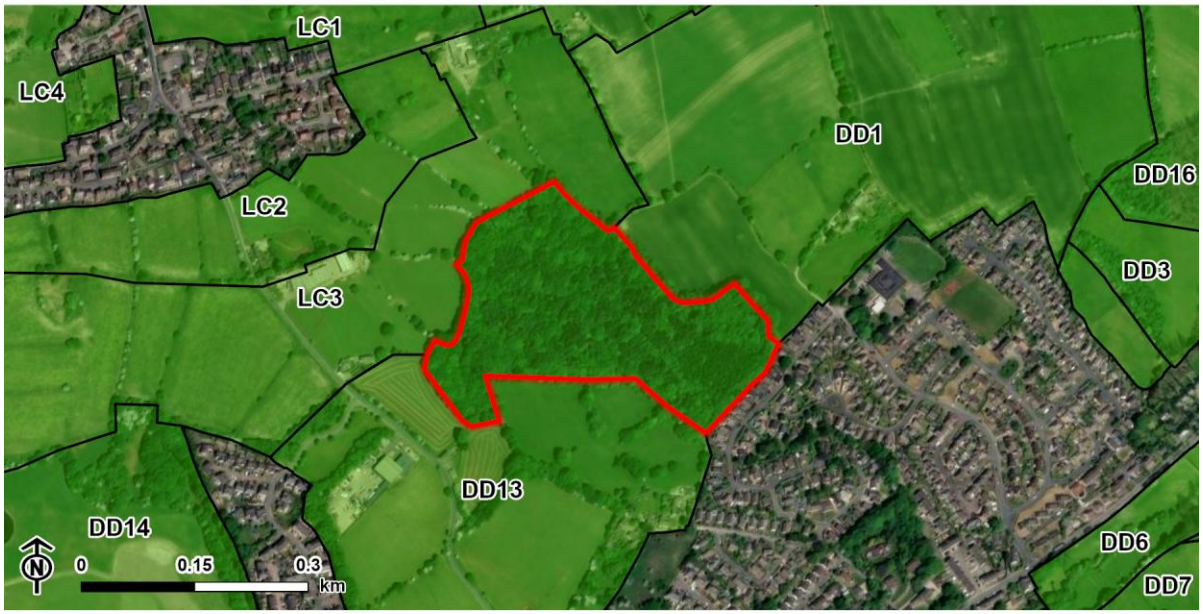

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel DD15 Description

Parcel Location, Land Uses and Boundaries
The parcel is located the north-west of Denby Dale and comprises mature woodland of Wither Wood and Pingle Dike. The outer boundaries are formed by dry-stone wall field boundaries and the outer edge of the woodland. Parcel size: 8ha. Wither Wood forms a strong boundary feature between the settlement and the parcel. There is some change in landform which creates a sense of separation between the settlement and the parcel. There is a weak perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. Natural features associated with Wither Wood limit perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A

Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel DD16 Description

Parcel Location, Land Uses and Boundaries
The parcel is located to the north-east of Denby Dale and south of Skelmanthorpe. It comprises open fields, areas of woodland tree cover and Thorpe Dike and Hen Perch Quarry in the south-east. Parcel size: 39ha. Boundary features within the parcel combine to create moderate separation. This includes the wooded areas associated with Putting Hill and Thorpe Dike. There is some change in landform which creates a sense of separation between the settlement and the parcel. There is a weak perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. There is a strong perception of the wider countryside, limiting the impact of any existing urbanising influence.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution
