Parcel FT1

Contribution of land in Parcel FT1

Parcel FT1 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel FT1 Description

Parcel Location, Land Uses and Boundaries
Land north-east of Farnley Tyas which comprises open fields with a woodland copse in the centre of the parcel, and trees and hedgerows located along outer field boundaries. The land is eastward sloping and is bound by Farnley Tyas to the south, open fields to the north and east, and Farnley Bank and Stock Dove Woods to the west. Parcel size: 35ha. There are no significant boundary features to separate the parcel from the settlement. There is no significant change in landform to create a sense of separation between the settlement and the parcel. There is some perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. There is a strong perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel FT1

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	There is some urbanising influence associated with development outside of the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would significantly increase the urbanising influence on adjacent open land. The parcel has only hedgerow and stone wall outer boundaries to the north and east, so development within the parcel would in turn increase the urbanising impact of development on adjacent open land.

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Parcel FT1

Purpose E – Assisting in urban regeneration:

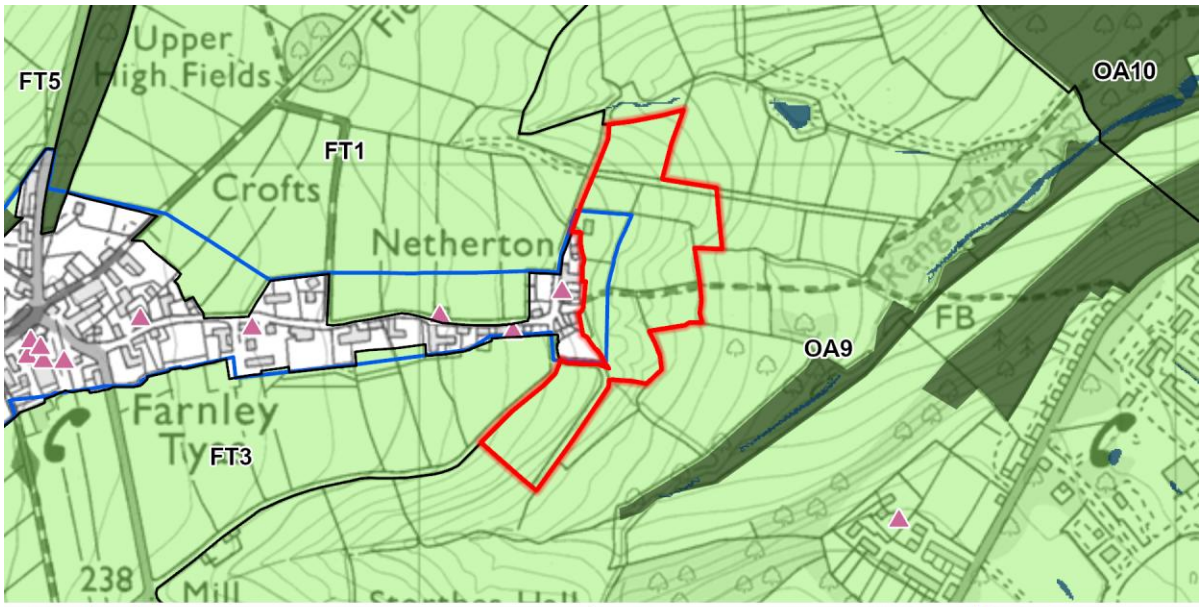

Equal contribution

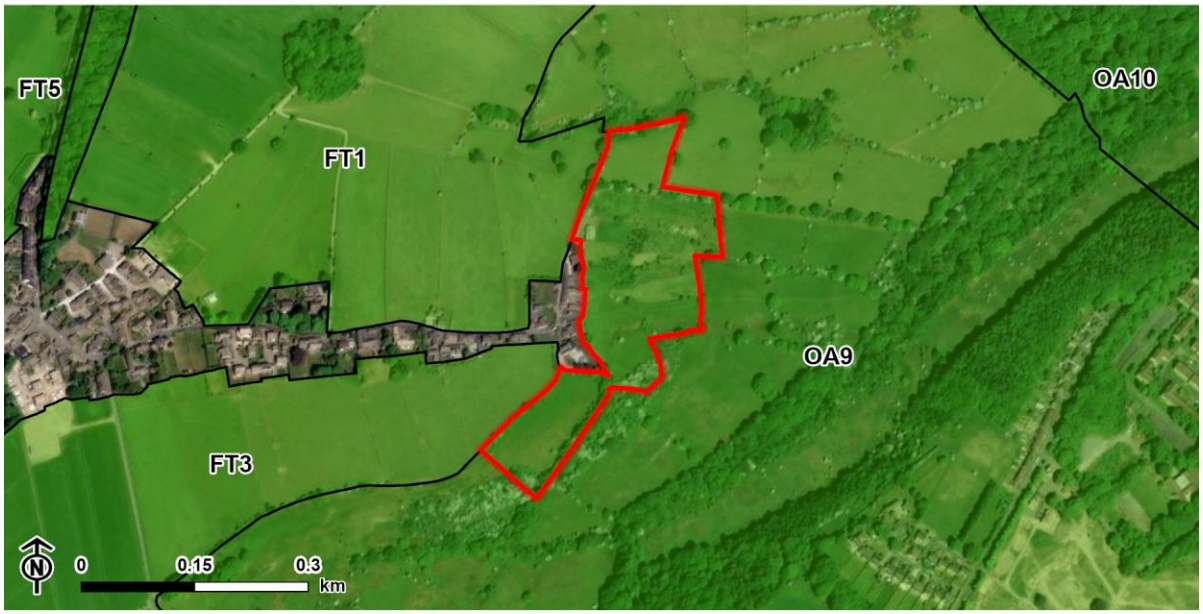

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel FT2

Contribution of land in Parcel FT2

Parcel FT2 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel FT2 Description

Parcel Location, Land Uses and Boundaries
Land located to the east of Farnley Tyas which comprises open, eastward sloping fields with areas of mature woodland and new tree planting forming the parcel's outer boundary to the east. Parcel size: 6ha. There are no significant boundary features to separate the parcel from the settlement. There is some change in landform which creates a sense of separation between the settlement and the parcel. There is some perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. There is a strong perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel FT2

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	There is some urbanising influence associated with development outside of the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would not significantly increase the urbanising influence on adjacent open land. Landform and woodland clearly mark the parcel's outer boundary to the east, north and south. Although development in the parcel would have some urbanising impact on land beyond, it would not significantly weaken its contribution to Purpose C.

Parcel FT2

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Purpose E – Assisting in urban regeneration:

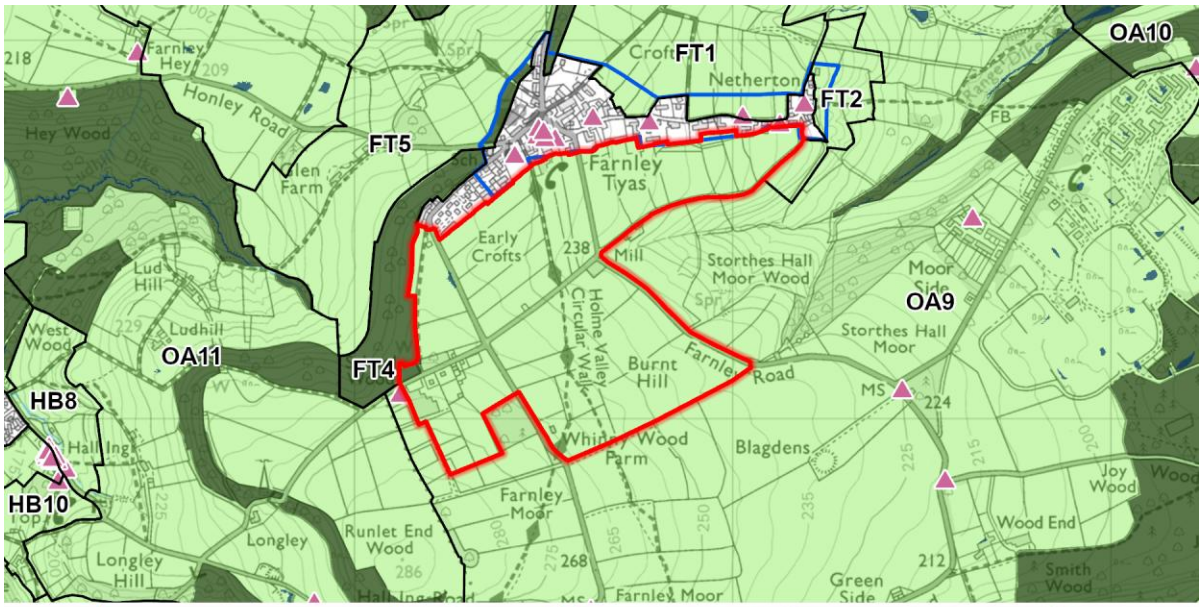

Equal contribution

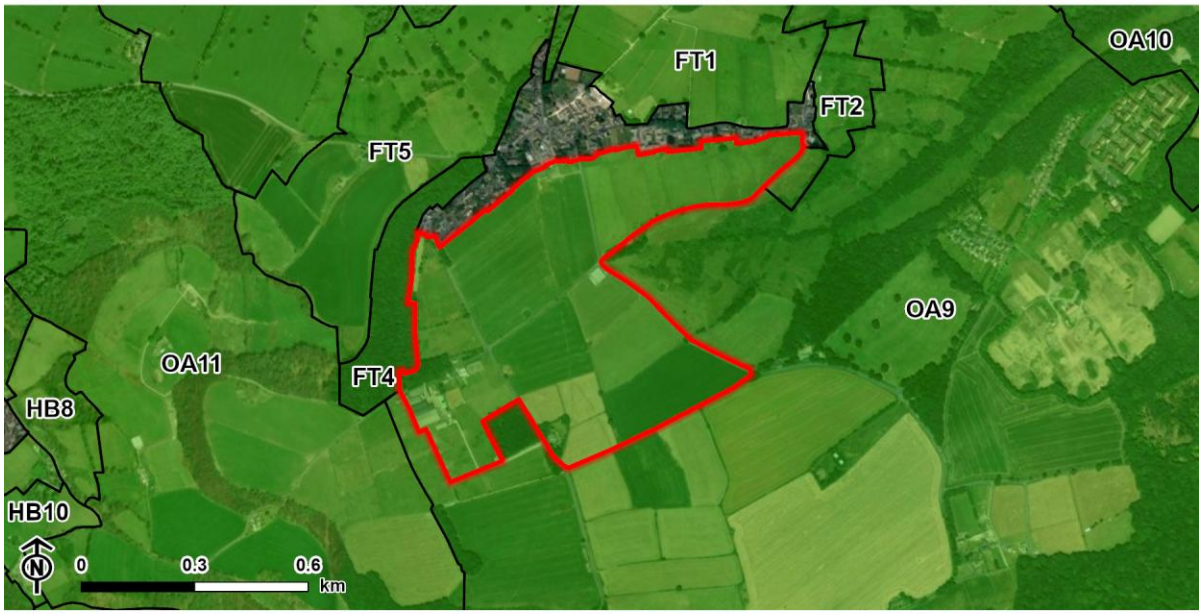

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel FT3

Contribution of land in Parcel FT3

Parcel FT3 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Strong	Weak/No	Equal	Yes

Parcel FT3 Description

Parcel Location, Land Uses and Boundaries
Land located south of Farnley Tyas. It comprises open fields on land sloping to the south-east. The parcel is bound by Farnley Tyas to the north, School Wood to the west, and stone walls run along the southern and eastern boundary along Farnley Road. Thurstonland Road and Moor Lane are also noted within the parcel. Parcel size: 52ha. There are no significant boundary features to separate the parcel from the settlement. There is no significant change in landform to create a sense of separation between the settlement and the parcel. There is some perception of urban development outside of the parcel in the northern part of the parcel which decreases in the south. There is no significant urbanising development or activity in the Green Belt affecting this parcel. There is a strong perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel FT3

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is predominantly free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	There is some urbanising influence associated with development outside of the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would significantly increase the urbanising influence on adjacent open land. The parcel has only stone wall boundaries to the south and south-west, so development within the parcel would in turn increase the urbanising impact of development on adjacent open land.

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Parcel FT3

Purpose E – Assisting in urban regeneration:

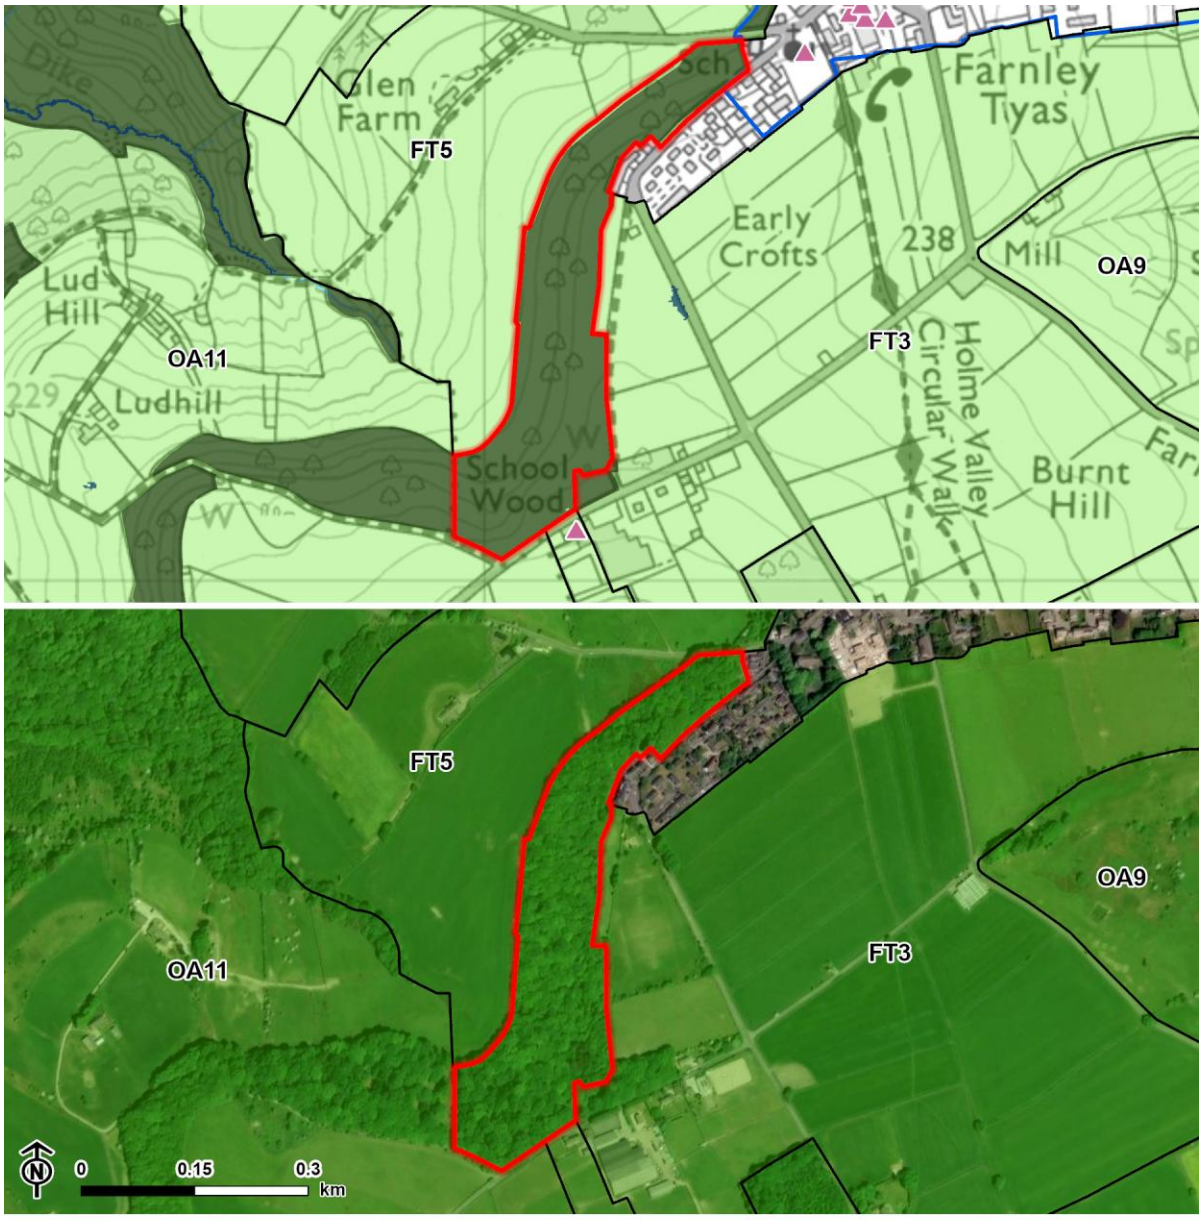

Equal contribution

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel FT4

Contribution of land in Parcel FT4

Parcel FT4 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Very Strong	Weak/No	Equal	Yes

Parcel FT4 Description

Parcel Location, Land Uses and Boundaries
Land located south-west of Farnley Tyas. The parcel is entirely comprised of School Wood, which is a dense mature woodland, located across on a ridgeline. Parcel size: 8ha. School Wood forms a consistent, well-defined boundary between the settlement and the parcel. There is a significant change in landform which creates a clear sense of separation between the settlement and the parcel. There is a weak perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. Natural features limit perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel FT4

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Very Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	The parcel is free from urbanising influences associated with development outside the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would not significantly increase the urbanising influence on adjacent open land. Although the woodland forms strong outer boundaries, the landform of the parcel and surrounding Green Belt is such that development within the parcel would in turn increase the urbanising impact of development on adjacent open land.

Parcel FT4

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Purpose E – Assisting in urban regeneration:

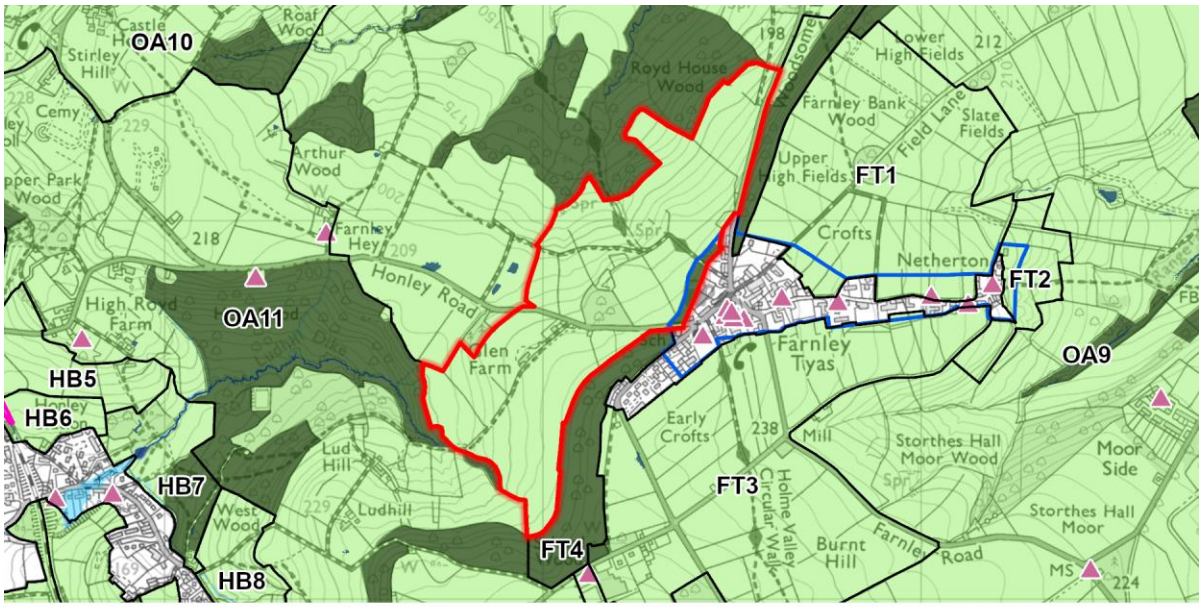

Equal contribution

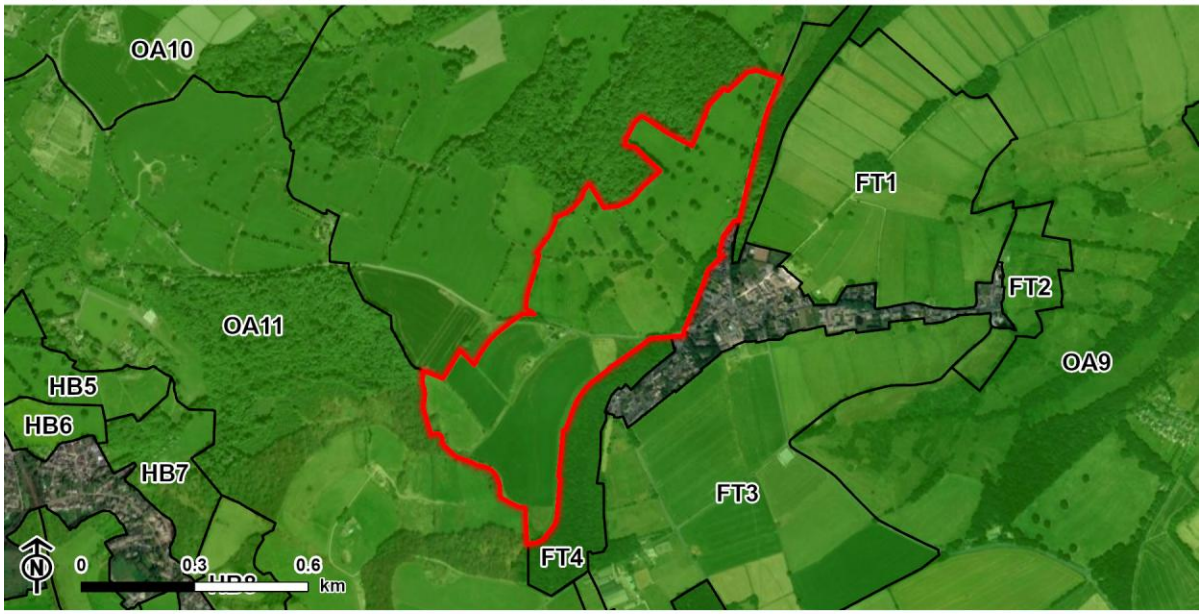

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel FT5

Contribution of land in Parcel FT5

Parcel FT5 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Very Strong	Weak/No	Equal	Yes

Parcel FT5 Description

Parcel Location, Land Uses and Boundaries
Land located to the north-west of Farnley Tyas. Land comprises north-westerly sloping open fields, with scattered trees located along inner field boundaries. The parcel is bound by multiple woodland areas, including School Wood and Hey Wood to the south and Royd House Wood to the north. Woodsome Road also runs along the north-eastern boundary of the parcel, and Honley Road bisects the parcel centrally. Parcel size: 39ha. There is a consistent strong boundary feature between the settlement and the parcel. This includes School Wood and Farnley Bank Wood. There is a significant change in landform which creates a clear sense of separation between the settlement and the parcel. There is a weak perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. There is a strong perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A

Parcel FT5

Assessment Considerations	Assessment
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Very Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	The parcel is predominantly free from urbanising influences associated with development outside the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would significantly increase the urbanising influence on adjacent open land. Although mature woodland clearly marks the parcel boundary to the north and south, the western edge of the parcel is characterised by open field boundaries, so development within the parcel would in turn increase the urbanising impact of development on adjacent open land.

Parcel FT5

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Purpose E – Assisting in urban regeneration:

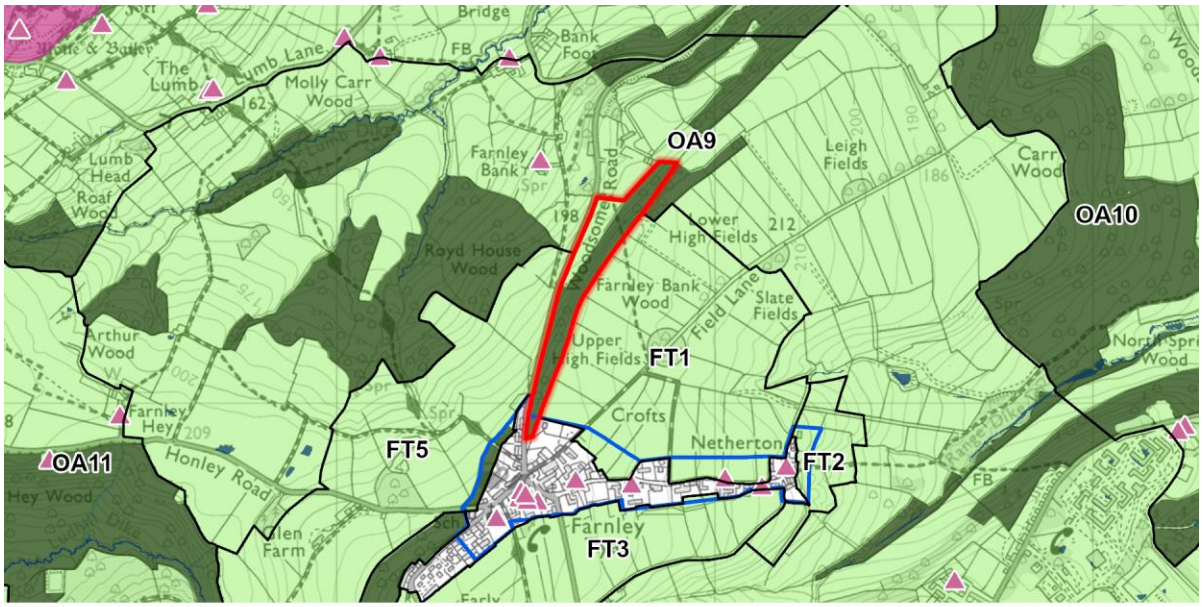

Equal contribution

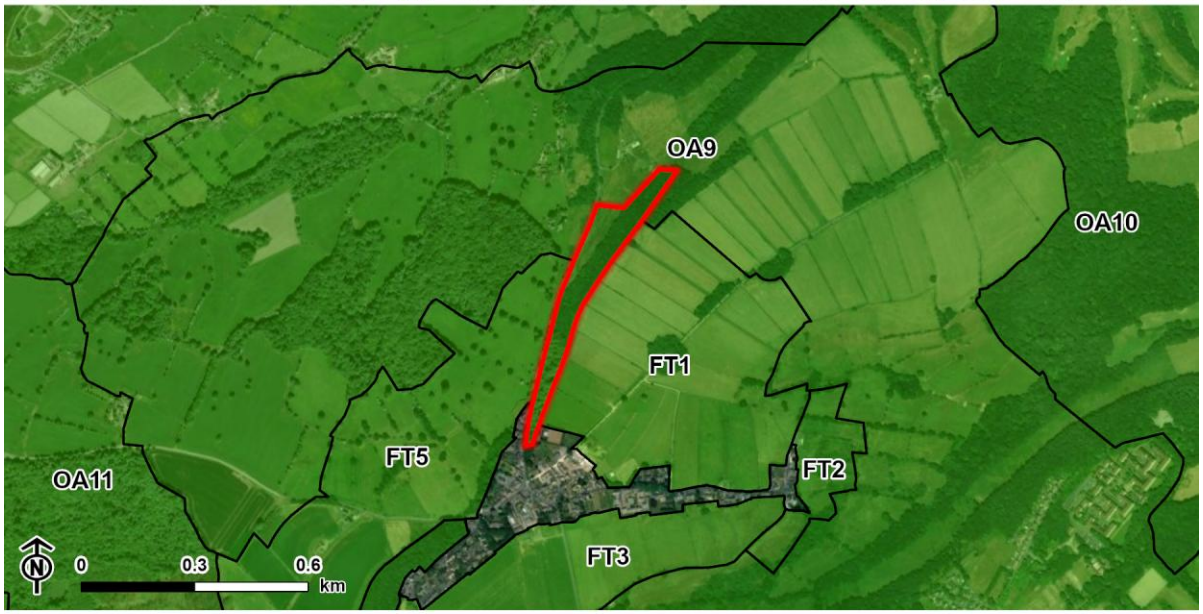

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.

Parcel FT6

Contribution of land in Parcel FT6

Parcel FT6 Assessment Conclusions

Purpose A	Purpose B	Purpose C	Purpose D	Purpose E	Grey Belt
Weak/No	Weak/No	Very Strong	Weak/No	Equal	Yes

Parcel FT6 Description

Parcel Location, Land Uses and Boundaries
Land located to the north of Farnley Tyas. Land predominantly comprises Farnley Bank Wood which lies on steep, north-westerly sloping land. Woodsome Road forms the parcels outer boundary to the west. Parcel size: 5ha. The woodland forms a strong boundary feature between the settlement and the parcel. There is a significant change in landform which creates a clear sense of separation between the settlement and the parcel. There is a weak perception of urban development outside of the parcel. There is no significant urbanising development or activity in the Green Belt affecting this parcel. Natural features limit perception of the wider countryside.

Purpose A: Checking the unrestricted sprawl of large built-up areas:

Weak/No contribution

Assessment Considerations	Assessment
Is the parcel adjacent or near to a large built-up area?	The parcel is not adjacent or near enough to a large built-up area to contribute to preventing its sprawl.
What is the extent of urbanising development in the parcel?	N/A
What is the extent of urbanising influence from outside the parcel?	N/A
Are there physical features in reasonable proximity that could restrict and contain development?	N/A
Would development form an incongruous pattern in relation to the large built-up area?	N/A

Parcel FT6

Purpose B: Preventing neighbouring towns from merging:

Weak/No contribution

Assessment Considerations	Assessment
Does the parcel lie in a gap between towns?	The parcel does not lie in a gap between towns that are close enough to be considered neighbouring.
What is the extent of urbanising development in the parcel?	N/A
Does the parcel form a substantial, small or very small part of the gap?	N/A
Would development result in loss of visual separation between towns?	N/A

Purpose C: Assisting in safeguarding the countryside from encroachment:

Very Strong contribution

Assessment Considerations	Assessment
Is land within the parcel countryside?	The parcel is part of the countryside and so contributes to preventing encroachment on it.
What is the extent of urbanising development in the parcel?	The parcel is free from urbanising development.
What is the extent of urbanising influence from outside the parcel?	The parcel is free from urbanising influences associated with development outside the parcel.
Would development impact adjacent Green Belt land?	Development in the parcel would significantly increase the urbanising influence on adjacent open land. Although the woodland forms strong outer boundaries, the landform of the parcel and surrounding Green Belt is such that development within the parcel would in turn increase the urbanising impact of development on adjacent open land.

Parcel FT6

Purpose D: Preserving the setting and special character of historic towns:

Weak/No contribution

No settlements in Kirklees are considered to be historic towns to which surrounding Green Belt land contributes special character

Purpose E – Assisting in urban regeneration:

Equal contribution

All Green Belt land plays an equal role in relation to this purpose.

Grey Belt

The parcel does not make a strong contribution to the Green Belt purposes A, B or D and therefore has the potential to be grey belt land. NPPF footnote 7 areas and assets within or connected to the parcel may provide a strong reason for refusing or restricting development within it. Such locations can only be provisionally defined as grey belt land until further relevant and necessary specialist assessment work has been undertaken.
