JSNA summary of health and wellbeing indicators for Greater Huddersfield Clinical Commissioning Group (GHCCG) 2013 (trends)

All figures are rates per 1000 unless specified. For indicator definitions, sources and time periods see data definitions tables

Updated: 17/07/2013

Key to symbols

Trend to date					Change since last report/ comparison with other geographical area					Other		
steep upward	slight upward	flat	slight downward	steep downward	*significantly better	unclear	*significantly worse	*significantly higher population	*significantly lower population	Not available	Not applicable	Data suppressed as denominator <=5 cases for deaths or <10 cases for other indicators.
⇧	⇗	⇨	⇘	⇩	●	▲	◆	⇧	⇩	Nav	N/A	●

*Significant differences were identified by comparing the 95% confidence intervals of the two rates. Where these do not overlap, we can be confident that the difference is not due to chance.
