JSNA summary of health and wellbeing indicators for North Kirklees Clinical Commissioning Group (NKCCG) 2013 (comparisons)

Updated: 17/07/2013

All figures are rates per 1000 unless specified. For indicator definitions, sources and time periods see data definitions tables

Key to symbols

Trend to date					Change since last report/ comparison with other geographical area					Other		
steep upward	slight upward	flat	slight downward	steep downward	*significantly better	unclear	*significantly worse	*significantly higher population	*significantly lower population	Not available	Not applicable	Data suppressed as denominator <=5 cases for deaths or <10 cases for other indicators.
⇧	⇗	⇨	⇘	⇩	●	▲	◆	⇧	⇩	Nav	N/A	●

*Significant differences were identified by comparing the 95% confidence intervals of the two rates. Where these do not overlap, we can be confident that the difference is not due to chance.
