Overview: The chart on page 176 (and Table B on page 177) shows that the demand for Reception places from children resident in this planning area is expected to decline.

In 2020/21 there were a number of unfilled places in one school.

In 2021/22 there were a modest number of unfilled places at national offer day in two out of three of schools. The pattern of pupil distribution illustrates that the majority of children (68%) living in the planning area attend schools in the area, with a number of pupils (12%) attending schools here from neighbouring planning areas.

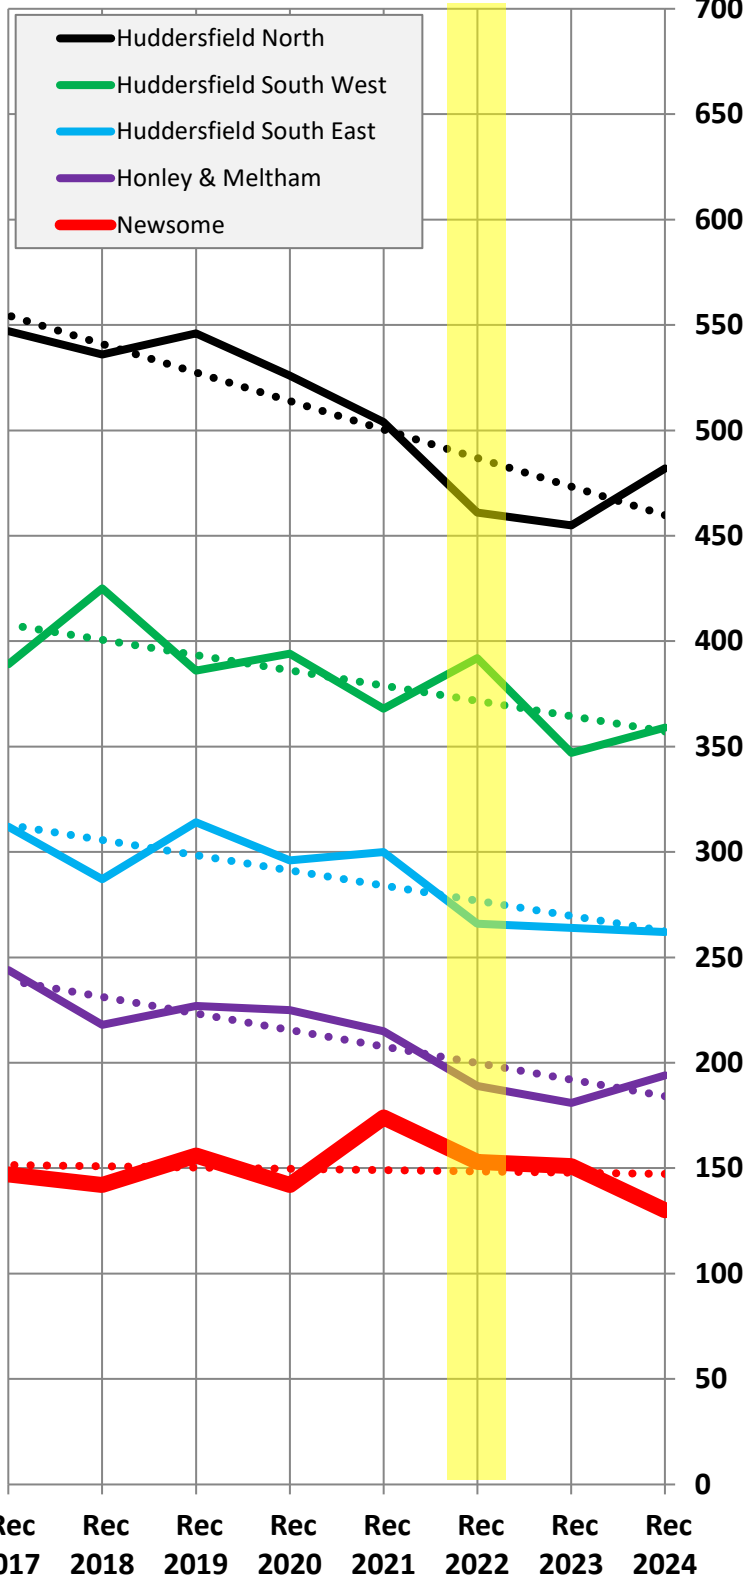

For 2022, 2023 and 2024 population data indicate a declining trend from a previous peak in 2021. There is no need for any additional places.
