

## **Cleckheaton TRO No 4 2022**

**Permit Parking, Oddfellows Street, Beech Street, Shaw Street, The Embankment, Beech Grove, No Waiting At Any Time, Doctor Lane, Oddfellows Street. Mirfield**

### **Statement of reasons**

Site visits to Oddfellows Street have shown all day and obstructive parking regularly takes place here preventing residents from being able to park near their homes and obstructs access into and out of the junction with Doctor Lane. To resolve these issues, it is proposed to introduce a residential permit parking scheme on Oddfellows Street and neighbouring streets to prevent parking being displaced there.

It is also proposed to extend the current 'No Waiting At any Time' to the south-west boundary of 15 Doctor Lane to try to maintain access up and down the road. A short section of 'No Waiting At Any Time' is also proposed on Oddfellows Street from the junction of Doctor Lane to improve access and visibility for drivers entering and exiting from the junction.

It is intended that these proposals will facilitate the free flow of traffic on the roads concerned and improve road safety for all road users.
