

KIRKLEES COUNCIL
Traffic Calming Scheme – Statement of Reasons
Hollinbank Lane, Heckmondwike

This traffic scheme is proposed following funding being made available via contributions from developers designated for highway safety improvements within the local area. The local ward councillors have therefore proposed to use a part of that funding to extend the existing traffic calming within the locality, to cover Hollinbank Lane, based on their experience and knowledge of their wards and concerns expressed by residents.

This scheme is design to tackle the issues of inappropriate speed and anti-social behaviour based around motor vehicles.
