

KIRKLEES COUNCIL
Traffic Calming Scheme – Statement of Reasons
Jackroyd Lane / New Laithe Hill, Newsome, Huddersfield

This traffic scheme is proposed following a funding stream becoming available under the title of Public Realm Improvements. Local Ward Councillors were asked to identify schemes they felt would benefit their wards, based on their experience and knowledge of their wards and concerns expressed by residents. As part of this process a traffic calming scheme for Jackroyd Lane / New Laithe Hill has been requested.

This scheme is designed to tackle the issues of inappropriate speed, rat running, and anti-social behaviour based around motor vehicles
