

KIRKLEES COUNCIL (TRAFFIC REGULATION) (CONSOLIDATION ORDER PROVIDING ON-STREET PARKING PLACES, WAITING, LOADING AND STOPPING RESTRICTIONS AND MIGRATION TO A 'MAP-BASED' FORMAT) ORDER 2024 (AMENDMENT NO. 17) ORDER 2025

WHITE LEE ROAD, HECKMONDWIKE

Statement of Reasons for Making the order :-

A traffic calming scheme has recently been completed along White Lee Road, to address concerns raised about the high speeds of vehicles travelling along it and the effect upon the safety of residents and other road users. Its primary objective was to reduce vehicle speeds along White Lee Road and the likelihood of future injury collisions occurring.

In some locations, running carriageways were narrowed down to widths that could no longer safely accommodate on-street parking whilst facilitating the free movement of traffic, therefore new waiting restrictions were introduced. As part of the original design, a short parking layby was proposed to the north of the Leefield Road junction to help manage displaced on-street parking in this area. However, due to the detection of fibre optic cables at the start of construction – which were not shown in their correct locations when enquiries were originally made – the layby could not be constructed.

This has led to uncontrolled on-street parking along this section where there is inadequate width for two-way traffic to safely pass, which is a potentially dangerous situation. The waiting restrictions are, therefore, being proposed to address this unforeseen safety problem.

It is anticipated these measures will improve road safety for all road users.
