Introduction

Notice of Review

In accordance with Section 18c (sub section 1) of the Representation of the People Act 1983, Kirklees Council is conducting a review of all 186 polling districts and 194 polling stations within the Kirklees area.

We welcome representations from electors within the authority area or within a UK Parliamentary constituency which has any part in the authority area on any aspect regarding the council's proposals for polling districts or polling places.

We also welcome representations from interested persons or groups, particularly those with expertise in disability access issues on the authority's proposals, the (Acting) Returning Officer's representations, or any other matter.

Any persons or bodies making representations should, if possible, provide alternative places that may be used as polling places.

Further details of the current and proposed arrangements can be found from page 8 Ward maps are available at appendix 1.

Representations can be made by emailing electoral.registration@kirklees.gov.uk or in writing to:

- Electoral Services Manager
3-5 Albion Street
Huddersfield
HD1 2NG

All representations that are received will be published and made available for inspection.

The deadline for making representations is 29 April 2025.

Details of the final proposed arrangements (following receipt of any further representations) will be published on 1 September 2025.

The Returning Officer will then make proposals to the Corporate Governance and Audit Committee in September 2025, having considered all the representations made, and these will be made available for inspection at 3-5 Albion Street, Huddersfield HD1 2NG.

Background

The review is designed to see if the polling districts and polling places in Kirklees are arranged to suit the needs of voters and covers the following:

- The polling district boundaries within each ward in the area
- The location of the polling place and station in each polling district
- The access to each polling station

LOCAL GOVERNMENT BOUNDARY REVIEW

The Local Government Boundary Commission has recently concluded a review of all 23 wards across the Kirklees and the changes are due to be laid before Parliament imminently for approval. The new warding arrangements will take effect at the next scheduled elections in May 2026. Should Parliament reject the final recommendations, the polling district and places review will be postponed.

It is important that the interim polling district and places review is carried out as early as possible, so that Kirklees has agreed polling districts and places to be used for the next all-out District Council elections in 2026 and has a polling scheme in place which reflects the new warding arrangements.

The Commission's final proposals retain 23 wards with three Councillors representing each ward, however the Commission has amended a number of wards across the district. The Commission's final recommendations can be found at appendix 2. The new ward maps are available at appendix 1. The Returning Officer is now reviewing the internal polling district boundaries of each ward and polling place to ensure the arrangements work with the new ward patterns. You can view the proposed polling district amendments for each ward at pages 8 - 41.

The ward boundaries cannot be changed as part of the council's review of polling districts and polling places, as they are the responsibility of the Local Government Boundary Commission.

Parish or Town Council boundaries cannot be changed as part of this review, this would need to be considered during a community governance review.

Parliamentary constituency boundaries cannot be changed as part of this review, this would need to be considered by the Boundary Commission for England.

What does the review involve?

The process starts with an official notice of review, which gives details of when and where comments or representations can be made in relation to the review. Any elector in the borough may make a representation in relation to the size and boundaries of polling districts and the location and suitability of polling places.

The Council also welcomes comments or representations from any elected members in the area, local political representatives and any person or body with expertise in access for persons with any type of disability.

Definitions

Polling district	The geographical area created by sub-dividing a constituency/ward.
Polling place	The designated area for a polling district in which polling station is located.
Polling station	The actual room or space where the process of voting takes place, e.g. a room in a community centre or school.

What criteria does the Council take into account when conducting a review?

- that all the electors have the best facilities reasonably available for voting
- that as far as is reasonable and practicable, each polling place is accessible to all electors
- the accessibility needs of disabled persons when considering designating a polling place
- where possible to comply with the Electoral Commission's guidance on the maximum number of electors that should be allocated to a polling station. Due to the introduction of voter ID requirements, the Electoral Commission have reduced their recommended maximum electors from 2,500 to 2,250, which excludes electors with a postal vote. We are proposing amendments to a number of polling district boundaries to ensure we comply with the Electoral Commission guidance and to avoid needing dual polling stations where possible
- where possible to ensure an equitable balance of polling districts across wards whilst ensuring we comply with the Commissions guidance as above.

Use of schools as polling stations

The law is quite specific in that Returning Officers (ROs) have the right to select schools as venues for polling stations.

If there is an area which can be used, with a separate entrance and isolated from the rest of the school, the school can continue to operate. If not, the school must close on the day of the poll.

Schools which need to close as a result of being used as polling stations can move to alternative accommodation or make up the lost day by other means.

The lost day could be made up at the beginning or end of a term, or a training day could be arranged on the day of the poll, if the head teacher or governors so wish. There are currently no plans to change or amend this legislation, which is found in: **The Representation of the People Act, 1983, Chapter 2, Schedule 1, Part III, paragraph 22.**

The legislation effectively renders all mainstream schools liable for use by the Returning Officer (RO) of the local authority irrespective of how they were procured. This includes:

- Academies
- City Technology Colleges
- Community schools
- Foundation schools

- LA Nursery schools
- Voluntary Aided schools
- Voluntary Controlled schools

The Returning Officer is aware that any use of schools can cause disruption and where possible is seeking alternative venues. The initial proposals below, if approved, reduces the number of schools we currently use from 23 to 7. We welcome any suggested alternative venues to schools currently used as polling stations as part of this consultation.

Decision making process

As part of the review, all elected ward members are consulted on proposed changes within their ward area. The final report and recommendations for changes to polling districts and places will be considered by the Council's Corporate Governance and Audit Committee at the meeting in September 2025.

How to take part

Any comments or representations on the existing arrangements or on the (Acting) Returning Officers proposals must be received in writing by 29 April 2025. Written correspondence can be emailed to electoral.registration@kirklees.gov.uk or posted to The Electoral Services Manager, 3-5 Albion Street, Huddersfield HD1 2NG.
