How to Guide – Sufficiency Data Collection - Childminders

To support the Local Authority in its duty to ensure there are sufficient early years and childcare places, the Childcare Sufficiency Team will collect childcare places and vacancy information on a termly basis. The data you provide will not be made directly available to families but will be used to give an indication of the level of availability in the local area - this will help to assess and monitor the supply and demand for childcare places and also contribute towards the council’s Annual Childcare Sufficiency Assessment.

This guide will provide you with the information you need to complete the Sufficiency Data using the Provider Portal.

Before starting the process of inputting your vacancies you must identify the places you offer and the ages you offer these places in as well as if you open all year round or just term time.

**Places Offered**

These are the maximum number of places you would offer to parents, per age range.

You will be asked about the places you offer across each day of the week, mornings and afternoons. If you are closed or do not offer places on a particular day you need to insert a zero in the box, for example if you do not open at the weekend put a zero in each of these days.

**Vacancies**

You need to complete the number of vacancies you have across each age range, morning and afternoon and day of the week. If you have this information to hand prior to completing the form it will be quicker.
