## 1. Housing update

### Context

- 1.1 Reporting on the delivery of additional dwelling provision is a particularly important element of annual monitoring reports. This annual monitoring report specifies the number of dwellings built during the period of the report (1<sup>st</sup> April 2011 – 31<sup>st</sup> March 2012) and dwellings built over the past 8 years.
- 1.2 In May 2008, the Yorkshire and Humber Plan – Regional Spatial Strategy (RSS) was published ([www.kirklees.gov.uk/ldfsupportdocuments](http://www.kirklees.gov.uk/ldfsupportdocuments)). The RSS proposed an annual requirement of 1,060 dwellings for 2004-08 and 1,700 for 2008-26. The Yorkshire and Humber RSS was revoked on 22<sup>nd</sup> February 2013 through the provisions of the Localism Act.
- 1.3 On 6 March 2012, the Council approved a core strategy to be subject to a representations period prior to submission to be considered by a planning inspector. This Core Strategy Proposed Submission document proposes a housing requirement of 22,470 over the period between 2010 and 2028. Following RSS abolition, the five year housing land supply calculations will be based on the proposed core strategy housing requirement (figure 1) rather than the RSS requirement.

<b>Figure 1 – Plan period and housing requirement</b>	
	<b>Increase in dwelling numbers required (2010-2028)</b>
Core strategy Proposed Submission	22,470

## Housing completions

- 1.4 During 2011/12 there were 965 housing completions, offset by losses of 92. Consequently the net completions for the period 2011/12 stand at 873.

## Housing capacity

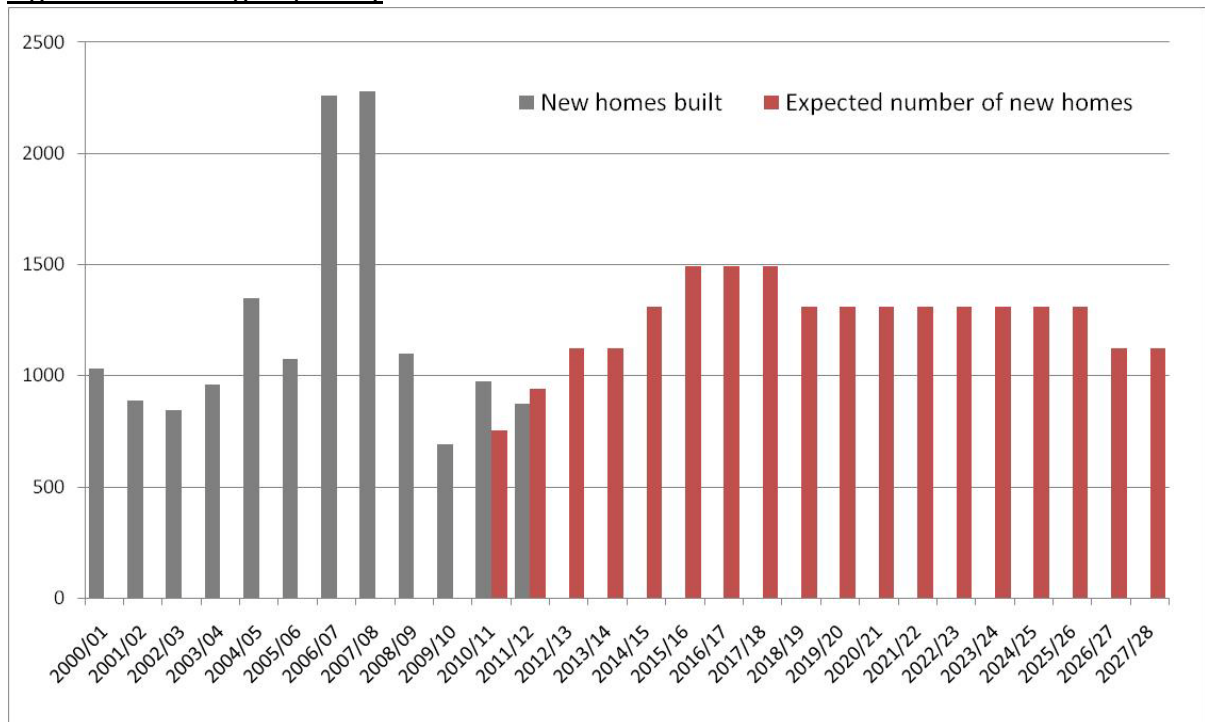

- 1.5 Figure 2 shows net housing completions since 2004 and remaining housing supply on sites with planning permission and Unitary Development Plan (UDP) housing allocations without planning permission.

<b>Figure 2 - Housing supply table (no. of dwellings)</b>				
<b>Year</b>	<b>Net completions</b>	<b>Dwellings with planning permission but not yet built at start of year</b>	<b>UDP allocations without planning permission at start of year</b>	<b>Total dwelling capacity from permissions and UDP allocations available at start of year</b>
2004/5	1,349	4,625	5,175	<b>9,800</b>
2005/6	1,074	5,483	4,604	<b>10,087</b>
2006/7	2,261	7,331	4,591	<b>11,922</b>
2007/8	2,281	7,974	4,252	<b>12,226</b>
2008/9	1,098	7,674	3,872	<b>11,546</b>
2009/10	692	8,406	3,661	<b>12,067</b>
2010/11	974	7,491	3,559	<b>11,050</b>
2011/12	873	7,033	3,515	<b>10,548</b>
2012/13	-	6,514	3,062	<b>9,576</b>

- 1.6 At 31<sup>st</sup> March 2012, the available housing capacity identified from planning permissions and remaining UDP allocations, as shown in the Housing Land Supply Review, amounted to 9,576. In addition, there is potential housing capacity on other sites including those with expired planning permission of 1,720 dwellings.
- 1.7 The change in total dwelling capacity between each monitoring year in figure 2 is generally the result of the number of new permissions granted each year, the expiry of existing planning permissions and the number of housing completions.
- 1.8 The Kirklees Strategic Housing Land Availability Assessment (SHLAA) also outlines potential housing capacity although much of this capacity cannot be considered for planning permission until the LDF has been completed.

1.9 Figure 3 shows completions since 2000/01 together with expected delivery over the period of the core strategy.

**Figure 3 – Housing trajectory**

### Five year housing land supply

1.10 Guidance on the provision of land for housing contained in national planning policy indicates that local authorities should identify sufficient specific sites to deliver a five year housing land supply.

1.11 The National Planning Policy Framework (NPPF) (paragraph 47) states that an additional buffer of 5% should be demonstrated and in cases where there has been a record of persistent under delivery of housing, the buffer should be increased to 20%.

1.12 As shown in figure 2, there are valid residential planning permissions with a capacity of 6,514 dwelling units. Of these, 5,963 are considered as having high development potential (i.e. to be deliverable within five years). Further capacity is also expected to come forward within five years on some sites with expired planning permissions (14 dwellings), SHLAA sites (575 dwellings) and some UDP allocations (499 dwellings). On these sites, potential losses through conversion or demolition not yet taken account of equate to 115 dwellings. This gives an overall capacity of 6,936 dwellings. The list of sites expected to come forward within five years is set out in Appendix A.

1.13 NPPF (paragraph 48) states that local planning authorities may make an allowance for windfall sites in the five year supply if there is compelling evidence that such sites have consistently become available in the local area

and will continue to provide a reliable source of supply. Windfall sites of less than 0.2 hectares (excluding residential gardens) have delivered an average of 296 dwellings per annum since 2007 with relatively small variations year on year irrespective of wide fluctuations in total completions. Using this as the basis of a windfall allowance and subtracting the capacity of sites less than 0.2 hectares with planning permission or expired permission and deliverable within 5 years, produces an allowance of 624 dwellings, increasing total 5 year capacity to 7,560 dwellings.

- 1.14 As of 22<sup>nd</sup> February 2013, the five year land requirement is based on the proposed core strategy housing requirement, which equates to 1,248 per annum on average (figure 1). In the two years since the core strategy base date, there has been a shortfall of 649. The annual housing requirement for the remainder of the plan period is therefore 1,289. On this basis the identified 5 year housing land capacity together with the windfall allowance (paragraph 1.13) equates to 5.87 years' supply.

### **Information sources**

#### **Strategic Housing Land Availability Assessment (SHLAA)**

The SHLAA provides information on sites that could potentially be used to meet the housing requirement in Kirklees. This includes sites with planning permission, UDP housing allocations, Provisional Open Land (POL) sites, green belt sites and other sites not currently allocated for housing. Sites are assessed based on whether they are suitable, available and achievable and for each the expected timescale for delivery is given. The SHLAA was published in October 2011 and can be viewed at [www.kirklees.gov.uk/shlaa](http://www.kirklees.gov.uk/shlaa)

#### **Housing Land Supply Review (HLSR)**

The Housing Land Supply Review (HLSR) is updated annually (with a base date of 1<sup>st</sup> April). This takes account of new planning permissions, housing completions and sites where permission has expired and therefore provides a partial update of SHLAA. The HLSR document can be viewed at [www.kirklees.gov.uk/ldfsupportdocuments](http://www.kirklees.gov.uk/ldfsupportdocuments)

## New homes built per year on brownfield land

- 1.16 National planning policy continues to advocate the effective use of land through re-use of brownfield (previously developed) land. Figure 4 shows that in 2011/12, 75.23% of new housing completions were on previously developed land, taking account of the NPPF definition which classifies private residential gardens as greenfield land.

<b>Figure 4 – New and converted dwellings - on previously developed land</b>		
	<b>2010/11</b>	<b>2011/12</b>
<b>Gross completions</b>	1,106	965
<b>Gross completions on previously developed land</b>	913	726
<b>% on previously developed land</b>	82.55%	75.23%

## Housing density

- 1.17 Figure 5 provides information relating to the gross number of completions in 2011/12 based on site densities.

<b>Figure 5 – Density of new housing completions (2011/12)</b>		
	<b>Dwellings</b>	<b>%</b>
<b>Less than 30 dwellings per hectare</b>	149	15.4%
<b>30 dwellings or greater per hectare</b>	816	84.6%
<b>Total</b>	965	100%

## **Appendix A – Deliverable housing capacity (0-5 years)**

The following list shows the deliverable capacity on housing sites in Kirklees (i.e. expected to come forward within the next five years). These sites and further capacity expected to come forward beyond five years can be accessed in the Strategic Housing Land Availability Assessment (SHLAA) ([www.kirklees.gov.uk/shlaa](http://www.kirklees.gov.uk/shlaa)) and the Housing Land Supply Review (HLSR) ([www.kirklees.gov.uk/ldfsupportdocuments](http://www.kirklees.gov.uk/ldfsupportdocuments)). Note that where sites appear more than once in the list, this is due to separate recording of different elements of the scheme such as conversions/new build and houses/flats.

### **Sites with planning permission (0-5 years)**
