1 Introduction

The Council is required to produce an Authority Monitoring Report (AMR) by Section 113 of the Localism Act. Detail of what must be included is set out by Regulation 34 of the Town and Country Planning (Local Planning) (England) Regulations 2012. The AMR must be published at least annually and set out:

- The title, timetable and progress towards the production of Local Plans or Supplementary Planning Documents
- Net additional dwellings provided since the Local Plan adoption
- Neighbourhood Development Plan progress
- Community Infrastructure Levy information (where applicable)
- Duty to Co-operate information

The AMR also reports on the monitoring indicators set out in Appendix 2 of the Kirklees Local Plan (Adopted February 2019).

2 Assessing progress against the Local Development Scheme

A revised Kirklees Local Plan Local Development Scheme (LDS) was adopted by Cabinet on 3rd December 2019. The Local Development Scheme sets out the timetable for the planning policy and guidance documents being prepared by the Council. The following sections provide an update in relation to the Development Plan, Community Infrastructure Levy, Supplementary Planning Documents, guidance and emerging Neighbourhood Development Plans.

2.1 Development Plan

The Kirklees Development Plan consists of the Kirklees Local Plan and the Holme Valley Neighbourhood Development Plan¹. These can be found on the council's [website](#).

The Kirklees Local Plan was adopted on 27th February 2019 and includes a Strategy and Policies document, an Allocations and Designations document and a Policies Map showing land allocations and designations. Appendix 2 of the Local Plan Strategy and Policies Document sets out the Monitoring Framework for the policies within the Local Plan.

The Holme Valley Neighbourhood Development Plan (HVNDP) covers the Holme Valley Parish Council area including part of the Peak District National Park and was successful at referendum on 4th November 2021. The Neighbourhood Plan was subsequently made (brought into force) by Kirklees Council on 8th December 2021 and by the Peak District National Park Authority on 10th December 2021.

The HVNDP comprises the policies document and associated designations. The HVNDP divides the neighbourhood area geographically into eight Landscape Character Areas where different policy considerations apply. The HVNDP designates four sites as Local Green Space and identifies individual buildings and structures to which new policy relating to their value as heritage assets now applies.

2.2 Community Infrastructure Levy and Infrastructure Funding

As set out in the 2019/20 Authority Monitoring Report, the council received the Examiner's Report (Inspector's Report) on the Community Infrastructure Levy in January 2020. As the government stated an intention to replace

¹ For planning applications in the Holme Valley Parish Council area

the Community Infrastructure Levy process with a nationally set Infrastructure Levy, the council decided not to adopt CIL at this stage. This was discussed by the Cabinet on 19 January 2021. The decision was that:

- the council shall not adopt the Community Infrastructure Levy Charging Schedule at this stage
- implementation of the CIL will be reconsidered at a later stage, dependent on national government policy intentions and economic circumstances.

The decision not to adopt CIL also takes into account a change in the planning rules which now allow contributions from developers to be pooled together and used to help fund infrastructure proposals to reduce the impacts of developments. The council will also continue to seek funding from the West Yorkshire Combined Authority to fund large scale infrastructure improvements.

If the council decided to re-visit CIL in future, the council would again consult the community and update its evidence to determine the most appropriate approach to support the economic recovery of the district.

The council publishes its annual Infrastructure Statement in December. This document shows the money the council has received from developers through the planning application process to fund infrastructure improvements. This also sets out how this money has been spent or is proposed to be spent.

2.3 Supplementary Planning Documents (SPDs)

Supplementary Planning Documents (SPDs) provide further guidance and information relating to one or more specific policies or proposals set out in the Local Plan and once adopted they are material considerations when determining planning applications. A full list of adopted Supplementary Planning Documents can be found on the council [website](#). The Supplementary Planning Documents all form part of the objective of creating quality places.

2.3.1 Huddersfield Blueprint SPD

The Huddersfield Town Centre Blueprint SPD was adopted on 24th June 2020. Following a legal challenge, the council revoked the adoption of the SPD on 27th October 2020 but continue to promote the Huddersfield Blueprint as the council's vision for the town centre.

2.3.2 Hot Food Takeaway SPD

TABLE 1 - LOCAL DEVELOPMENT SCHEME – HOT FOOD TAKEAWAY SPD

Milestones	Dates in LDS	Actual / expected timeline
Consultation	February – March 2020	November – December 2021
Adoption	August 2020	Anticipated Summer 2022

Consultation took place on the SPD from 9th November to 21st December 2021. The consultation was initially delayed due to announcements by the Government that restaurants could provide takeaway food without the need for planning permission as a response to the pandemic. In January 2021, the council took the opportunity to review the evidence base which supports the SPD and undertake further engagement prior to producing the consultation draft SPD. Subject to the consideration of consultation responses, the council will seek to adopt the SPD in 2022.

2.3.3 Open Space SPD

TABLE 2 - LOCAL DEVELOPMENT SCHEME – OPEN SPACE SPD

Milestones	Dates in LDS	Actual timeline
Consultation	February – March 2020	October – December 2020
Adoption	August 2020	Adopted June 2021

There was a delay to the timetable to enable further engagement and to seek a range of views on the document. Following consultation between 19th October and 14th December 2020, the SPD was adopted on 29th June 2021.

2.3.4 Residential Design SPD

The Local Development Scheme set out the timetable for a Residential Design SPD. Due to the wide-ranging nature of such a Supplementary Planning Document, this was split into two separate SPDs:

- House Extensions and Alterations SPD
- Housebuilder Design Guide SPD

TABLE 3 - LOCAL DEVELOPMENT SCHEME – HOUSE EXTENSIONS AND ALTERATIONS SPD

Milestones	Dates in LDS	Actual timeline
Consultation	June - July 2020	October – December 2020
Adoption	December 2020	June 2021

Milestones	Dates in LDS	Actual timeline
Consultation	June - July 2020	October – December 2020
Adoption	December 2020	June 2021

There were delays to the timetables of these documents to enable further engagement and to seek a range of views on the document. Following consultation between 19th October and 14th December 2020, the SPD was adopted on 29th June 2021.

2.3.5 Affordable Housing/Mix SPD

An Interim Affordable Housing update was published on 14th January 2020². This will be replaced by the Affordable Housing/Mix SPD in due course.

TABLE 5 - LOCAL DEVELOPMENT SCHEME – AFFORDABLE HOUSING / MIX SPD

Milestones	Dates in LDS	Actual / expected timeline
Consultation	June – July 2020	Summer 2022
Adoption	December 2020	Autumn 2022

The document was delayed to allow further evidence to be collected. It is anticipated that public consultation will occur in Summer 2022.

2.4 Further guidance

In addition to Supplementary Planning Documents, during the 2020/21 monitoring period, a Viability Guidance Note was approved on 10th June 2020:

- Viability Guidance (approved 10th June 2020) - This principally provides advice on the level of information the council require in order to commence discussions around development viability.

Further guidance has also been produced and these will be formally reported in the 2021/22 Authority Monitoring Report, including:

- Biodiversity Net Gain Technical Advice Note (approved 29th June 2021) - Sets out clear guidance on how biodiversity should be considered throughout the development process, including the utilisation of Defra's Biodiversity metric to demonstrate a mandatory 10% net gain in biodiversity as set out in the Environment Bill which received Royal Assent on 9th November 2021.

² <https://www.kirklees.gov.uk/beta/planning-policy/adopted-supplementary-planning-documents.aspx>

- Climate Change for Planning Applications guidance (approved 23rd June 2021) - Provides guidance for developers in relation to a range of factors relating to energy demand, waste, renewable energy, flooding, water use and landscaping. This is to inform a Climate Change Statement to be submitted with planning applications.

2.5 Area Action Plans

Two Area Action Plans are outlined in the Local Development Scheme for Huddersfield and Dewsbury. These Plans did not progress due to the focus on delivering the Huddersfield and Dewsbury Blueprints and the implications of managing town centre activities during the pandemic. The council is committed to regenerating town centres and has a programme of town centre projects which it is seeking to deliver.

2.6 Neighbourhood Development Plans

In Kirklees, there are currently six areas of the district that have had a Neighbourhood Area designated for the purposes of producing a Neighbourhood Development Plan. A map showing the coverage of each area can be found on the Council's website³. The Holme Valley Neighbourhood Plan Area includes part of the Peak District National Park. The Peak District National Park Authority (PDNPA) is the planning body for this area.

There are several key stages in the production of a Neighbourhood Development Plan following designation of a Neighbourhood Area. These include pre-submission consultation and publicity on the draft plan, submission to Kirklees Council, independent examination of the plan and then a referendum. The referendum may be in the Neighbourhood Plan Area or wider dependant on the decision of the examiner. For the plan to be successful at a referendum it needs to achieve a vote of more than 50% from those voting in the area affected. Plans which are 'made' (brought into force) become part of the statutory development plan for the area covered by the plan. Progress on Neighbourhood Development Plans is set out below and further details can be found on the Neighbourhood group websites.

3 Duty to Cooperate

The Duty to Co-operate (DtC) is set out in section 110 of the Localism Act 2011 and section 33A of the Planning and Compulsory Purchase Act 2004. Paragraph 24 of the National Planning Policy Framework states that “*local planning authorities...are under a duty to cooperate with each other, and with prescribed bodies, on strategic matters that cross administrative boundaries*”. It further states at paragraph 27 “*in order to demonstrate effective and on-going joint working, strategic policy-making authorities should prepare and maintain one or more statements of common ground, documenting the cross-boundary matters being addressed and progress in cooperating to address these. These should be produced using the approach set out in national planning guidance and be made publicly available throughout the plan-making process to provide transparency*”.

The Local Authorities sharing a boundary with Kirklees are:

- Calderdale Council
- City of Bradford MDC
- Leeds City Council
- Wakefield Council
- Barnsley Council
- Oldham Council
- Peak District National Park Authority

The District also shares a boundary with High Peak Borough Council, however the responsibility for planning functions in the area adjacent to Kirklees rests with the Peak District National Park Authority. The Duty also applies to other prescribed public bodies.

Kirklees forms part of the Leeds City Region Local Enterprise Partnership (LEP) and Kirklees is one of the authorities forming the West Yorkshire Combined Authority (WYCA).

The council continues to attend regular meetings and work with adjoining authorities and other public bodies to discuss strategic cross-boundary issues. The council is also committed to ongoing Duty to Co-operate discussions through the plan making processes. During 2020/21, specific discussions were held with adjoining authorities in relation to their emerging plans and to ensure awareness of the current planning guidance being prepared by Kirklees Council. In March 2021, a Statement of Common Ground relating to the Duty to Co-Operate was signed with Wakefield City Council in relation to their emerging Local Plan.

LP3I DEMONSTRATION OF A FIVE YEAR SUPPLY OF DELIVERABLE HOUSING CAPACITY

National planning policy requires local planning authorities to demonstrate five years supply of specific deliverable housing sites against their housing requirement. This includes consideration of sites with full planning permission as well as sites with outline permission or allocated in the Local Plan where there is clear evidence to justify their inclusion in the supply.

National policy also states that calculations must include a buffer of 5% to allow for choice and competition in the market for land or 20% where there is “significant under delivery of housing”. The Housing Delivery Test results (2020) published by the government on 19th January 2021 determined that Kirklees is required to include a 5% buffer in the five-year supply calculations.

The assessment of the required housing within the five-year period (taking account of under-delivery since the Local Plan base date and a 5% buffer) compared to the deliverable housing capacity, windfall allowance, lapse rate and demolitions allowance shows the current land supply position in Kirklees is 5.17 years.

The Kirklees Local Plan sets out a supply of specific deliverable sites sufficient to provide 5 years' worth of sites to accommodate Gypsy and Traveller needs.

9 Retailing and town centres

Occupancy monitoring of premises/units within the district's town centres as defined in the Local Plan is undertaken in each centre at the same time each year. This allows the data to be compared to previous years without needing to account for seasonal fluctuations. However, due to Covid-19 restrictions the occupancy surveys undertaken in 2020 and 2021 have all been in September and October. Due to lockdown restrictions the surveys of Dewsbury and Batley were cancelled in 2020.

9.1 Primary Shopping Frontages

The aim of the shopping frontages policy is to maintain primary shopping frontages in over 60% A1 retail use (comparison goods, convenience goods and retail services) at ground floor level. A1 refers to the use class prior to the introduction of the new use class E on the 1st September 2020.
