Subject: Re: FW: KIRKLEES LOCAL PLAN - 26 APRIL/27 APRIL - HOUSING SESSION

Dear Yvonne,

I attended the hearing yesterday in relation to phasing and options. I do however wish to let you know that I did not receive an agenda from you prior to the hearing, so was unaware of the itinerary. I therefore did not speak on site phasing 1C and although it is a small point I would be grateful if it could be noted by the Inspector and that is that in relation to Figure 1- Housing trajectory, I just want to add that the developments seemingly reaching a peak in 2020/2021 will have serious logistical consequences in our areas, impacting on local people, going about their daily lives in terms of grid lock and congestion on our local roads, noise and our areas being transformed into huge building sites. In the Lepton area for example the proposed developments cannot be completed without more transport infrastructure and school places.

Kind regards,

Alison Munro
