

KIRKLEES PLAYING PITCH ASSESSMENT

ADDENDUM : CORRECTIONS AND AMENDMENTS

- 1.1. The Playing Pitch Strategy for Kirklees was completed in late 2015, but has always been intended to be a 'live' document, responsive to changes over time.
- 1.2. Since completion of the process, a small number of corrections and omissions have been identified, which are set out below.
- 1.3. Where the item is listed as a correction, it should be taken that the entry below is the correct entry for October 2016 going forward, superseding the entry in the main body of the document.
- 1.4. Where the entry below reflects discovery of a pitch that was inadvertently overlooked in the original study, this becomes the official entry for that particular site.
- 1.5. It is intended that follow up reviews take place on an annual basis to record any known changes or corrections to the information contained in the Playing Pitch Strategy. Given this, the entries in this appendix will carry a date alongside them to show when the correction was made.

Omissions (October 2016)
