

TRO No 8 2022

Proposed 7.5 tonne weight limit

Cliff Hollins Lane, Wyke Lane, Greenside, Cross Street, Back Richard Street, Richardson Street, Oakenshaw

Statement of reasons

The Section 278 (S278) application has been made to accommodate increased traffic of standard and larger vehicles to a proposed business park off Cliff Hollins Lane.

A 7.5 tonne weight limit is being proposed on the above roads to ensure HGVs travelling to and from the new business park do not use the narrow residential and country roads to access these premises.

It is intended that these proposals will facilitate the free flow of traffic on the roads concerned and improve road safety for all road users.
